Preface

This, the eighth edition of the *Index to Federal Programs and Services*, includes information on 180 federal organizations, including departments, agencies, boards and Crown corporations. Some bodies, such as the Privy Council Office, are not included here, since their activities affect the general public only through other departments. Some other organizations that are included do not necessarily provide a direct service to the public, but are involved in activities that impinge on the public in some way.

Part I contains descriptions of programs and services provided by the federal government. Part II consists of addresses and phone numbers (where available) of federal, regional, district and branch offices serving the public throughout Canada.

The section on page 12 describes the various elements of this book and provides a detailed explanation of how to use it most effectively.

As in previous years, the *Index* could not have been produced without the co-operation and unflagging assistance of all the federal co-ordinators who provided the original material and who worked so diligently to ensure accuracy of content and to provide the editors with new information right up to the last minute. We would like to express our appreciation and thanks for their continued support.

Final update was 15 November 1986.

How to use the *Index*

The *Index* is a compendium of information on federal government services. Part I gives descriptions of programs and services provided by federal departments, agencies, Crown corporations and Canada's judiciary. Part II groups together by province and city the office addresses for these organizations. Each section of the *Index* is complete in itself, but also linked to the information in other parts of the book.

Part I

In Part I, each organization's section includes a head office address, a list of the cities where that organization has regional offices, a general inquiry number, the title of the minister or agent through whom the organization reports to Parliament, a brief summary of the organization's responsibilities, and descriptions of the individual programs or services administered by the organization. Page 13 opposite gives an example from Part I.

There are several avenues of access to Part I.

The **Organization Index**, page 8, lists alphabetically and gives the page number for the institutions found in this book. For example:

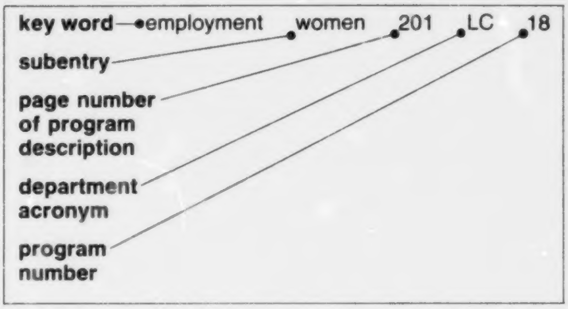
207	National Capital Commission
209	National Council of Welfare
210	National Defence, Department of

Page 10 gives the **organization identifiers**, in alphabetical order, for these institutions.

The *Index* also provides access to federal telephone information numbers. On page 15 is a list of **telephone referral services** in Canada. The **Toll-free Telephone Service** section, page 17, lists all toll-free numbers available throughout the country for specific programs or services, such as the income tax information service, or for general information on departments, as for the Information and Privacy commissioners of Canada.

This section is followed by a list of information **telephone numbers for the hearing-impaired**.

The **subject index**, page 39, provides a direct route to a specific program description by topic. The key word gives the page number of the program description, the institution identifier and the program number, as illustrated below.



Part II

Part II of the *Index* contains a **listing of all federal government offices** in Canada. The list is divided into the 12 provincial and territorial sections of the country, arranged alphabetically from Alberta to Yukon Territory. It is further broken down by city, with the office addresses for each city listed by department, also arranged alphabetically. Most office listings include a branch or division name, street address, postal address, postal code and telephone number.

Heading Part II is the **city index**, an alphabetical list of the organizations that have regional, district or local offices. Under each organization name is a list of the cities where that institution has offices. To find the nearest Transport Canada Coast Guard office, for example, check the list under that department's name and branch for the town nearest you. Then turn to the town in the relevant provincial section for the full address.

Following the guidelines laid down by the Canadian Permanent Committee on Geographical Names, the alphabetical arrangement of town and city names is letter by letter: for example, Biggar comes before Big River; Lac-Mégantic before La Malbaie. Towns beginning with Saint, St, Sainte, Ste are all interfiled alphabetically by letter, with the contractions being treated as if they were spelled out; for example, St Andrews precedes Saint John and St Stephen; Sainte-Thérèse precedes Saint-Eustache.

Part II of the *Index* also includes the addresses, by province and town, of **associated bookstore agents** of Government of Canada publications. Following that list is an enumeration of the towns, by province, where there are **depository libraries**.

Judiciary

Canadian Judicial Council (CJC)

130 Albert Street
Room 717
Ottawa, Ontario
K1A 0W8

Information: Ottawa/Hull (613) 998-5182.

The Council aims to promote efficiency, uniformity and improved judicial service in superior and county courts.

CJC 1
Seminars: the Council organizes seminars for the continuing education of judges.

CJC 2
Federal judges/complaints: the Council conducts inquiries into complaints against federally appointed judges.

Court Martial Appeal Court of Canada (CMAC)

Supreme Court of Canada Building
Kent and Wellington Streets
Ottawa, Ontario
K1A 0H9

Information: Ottawa/Hull (613) 995-6719.

The Court Martial Appeal Court of Canada is a superior court of record constituted by Parliament under Section 101 of the Constitution Act, 1867, for the better administration of the laws of Canada. Its members are judges of the various superior courts of criminal jurisdiction throughout Canada, as defined by the Criminal Code and the Federal Court Act. One is designated the Chief Justice. Each judge is separately appointed to the Court by Order in Council and holds a patent issued under the Great Seal of Canada.

CMAC 1
The jurisdiction of the Court Martial Appeal Court is defined by Part IX of the National Defence Act. The Court has the same jurisdiction in appeals of convictions by courts martial as do provincial and territorial courts of appeal in the case of criminal convictions, except that authority to deal with an appeal in respect of severity of sentence belongs to the Minister of National Defence. There is no right to appeal an acquittal by a court martial. An appeal to the Supreme Court of Canada is allowed, by leave of that court or where there has been a dissenting judgement, on any question of law. The Court's Rules of Practice and Procedure, while conforming as closely as possible to those of the provincial and territorial courts of appeal in criminal appeals, are of necessity different in a number of important particulars. Under the Rules, the Chief Justice may authorize appointment of counsel for an appellant at public expense. Any member in good standing of a law society in Canada is entitled to appear before the Court, as are officers of the Judge Advocate General's Branch of the Department of National Defence. The Court sits as a panel of three judges and may sit outside as well as within Canada, in any place with suitable court facilities, and as near as possible to locations convenient to appellants and their counsel. The officers, clerks, and employees of the Federal Court of Canada also perform the duties of their respective offices for the Court Martial Appeal Court of Canada.

Federal Court of Canada (FCTC)

Principal Office
Supreme Court of Canada Building
Kent and Wellington Streets
Ottawa, Ontario
K1A 0H9

Local Offices: Whitehorse, Yellowknife, Vancouver, Edmonton, Calgary, Regina, Saskatoon, Winnipeg, Toronto, Montréal, Québec, Fredericton, Saint John, Halifax, Charlottetown, St John's.

Information: Ottawa/Hull (613) 995-8012.

The Federal Court of Canada, as constituted by the Federal Court Act, is a court of law, equity and admiralty, and a superior court of record having civil and criminal jurisdiction. It consists of the Federal Court of Appeal, with the Chief Justice and 10 judges, and the Federal Court – Trial Division, with the Associate Chief Justice and 14 judges, one of whom has elected to take supernumerary status.

FCTC 1
Hearings: the Federal Court of Canada may sit anywhere in the country at times arranged as nearly as possible to suit the convenience of the litigants, although it does not hold trials or hearings on a circuit basis. In Ottawa, sittings of the Federal Court are held in the Supreme Court of Canada Building. The judges' offices are in the same building. Prothonotaries' sittings (the Court has a Senior Prothonotary and an Associate Senior Prothonotary) are held in open court to hear motions at the direction of the Associate Chief Justice. Prothonotaries have the power to dispose of any interlocutory application or any action concerning a claim not exceeding $5000 assigned to them by the Chief Justice or the Associate Chief Justice.

FCTC 2
The Federal Court of Appeal has jurisdiction to hear appeals from the Trial Division; to review decisions of federal boards; to determine questions of law, jurisdiction, or practice and procedure referred by federal boards, commissions and tribunals; and to hear appeals under various federal acts other than the Income Tax Act, the Estate Tax Act and the Canadian Citizenship Act. Appeals from decisions of the Court may be taken to the Supreme Court of Canada, once leave is granted by the Federal Court of Appeal or the Supreme Court.

FCTC 3
The Federal Court, Trial Division, has jurisdiction in cases in which relief is claimed against the Crown, and in cases in which relief is claimed by the Crown or the Attorney General of Canada. The Trial Division also has jurisdiction to hear proceedings for prohibition, mandamus, certiorari, injunction, or declaratory relief against federal boards, commissions and other tribunals; and for interprovincial and federal-provincial disputes. It also conducts hearings on industrial property proceedings; admiralty proceedings; income tax and estate tax appeals; citizenship appeals; and claims for relief, if there is no other Canadian court that has such jurisdiction.

FCTC 4
Registry: the Federal Court of Canada has one Registry for the entire country, which is responsible for the administration of legal proceedings within the Court. It is composed of the principal office in Ottawa and 16 local offices. Eight of these are staffed by employees of the Federal Court of Canada. The remaining eight are administered by provincial and territorial court employees. In Ottawa the Registry is located in the Federal Court Annex Building.

Additional functions and responsibilities (FCTC 5 – FCTC 7)

Local Offices: Vancouver, Edmonton, Calgary, Winnipeg, Toronto, Montréal, Québec, Halifax.

Information: Ottawa/Hull (613) 995-6020; local offices *see* Part II *under* cities listed above.

FCTC 5
Animal disease and protection/appeals: owners of animals that have been destroyed under the provisions of the Animal Disease and Protection Act may appeal compensation decisions to the Assessor, who is appointed under Part II of the Pesticide Residue Compensation Act. Appeals must be submitted within three months from the date the owner receives notification of the compensation decision. The Assessor may, for special reasons, allow a longer period.

FCTC 6

Supreme Court of Canada (SUPC)

Supreme Court of Canada Building
Wellington Street
Ottawa, Ontario
K1A 0J1

Information: Ottawa/Hull (613) 995-4330.

SUPC 1
The Supreme Court of Canada is the highest court of the land. It is a general court of appeal for both criminal and civil cases. Its jurisdiction embraces the civil law of the province of Québec as well as the common law of the other nine common-law provinces and the territories. The Court reviews cases from the 10 provincial Courts of Appeal and from the Appeal Division of the Federal Court of Canada. In most cases it will hear appeals only if permission to appeal is first granted. The Court can also hear cases referred by the Governor in Council on constitutional questions. The Supreme Court sits only in Ottawa and holds three sessions during the year. Hearings are open to the public.

Tax Court of Canada (TCC)

200 Kent Street
Ottawa, Ontario
K1A 0M1

Information: Ottawa/Hull (613) 992-0901.

TCC 1

In 1983 the Tax Court of Canada replaced the Tax Review Board, whose members then became judges. While the Court has the status of a court of record, completely independent of the government, it does not require any special form of pleadings and is not bound by any legal or technical rules of evidence.

The Court has original jurisdiction to hear and determine appeals on matters arising under the Income Tax Act, the Canada Pension Plan, the Petroleum and Gas Revenue Tax Act and Part IV of the Unemployment Insurance Act, 1971. It also has jurisdiction to determine questions relating to a source or sources of income under the Old Age Security Act and under the War Veterans Allowance Act. Hearings are held in major centres throughout the country, with respect to income tax appeals, but unemployment insurance appeals are heard in smaller communities as well. All parties to an appeal may appear in person or may be represented by counsel or an agent. The decisions of the Tax Court of Canada may be appealed to the Federal Court of Canada.

According to legislation, the Tax Court of Canada is to consist of a chief judge, an associate chief judge and not more than 10 other judges. However, to enable the Court to cope with the judicial workload, the Act allows the chief judge to recommend retired federally and provincially appointed judges for appointment as deputy judges of the court.

A borrower may have several guaranteed loans outstanding at one time as long as the total does not exceed $100 000. Farm Improvement Loan Administration. Inquiries: Ottawa/Hull (613) 995-9554.

AGC 18
Loan guarantees: under the Agricultural Products Co-operative Marketing Act the federal government guarantees bank loans to primary producers for initial payments and operating costs through agreements between the Minister of Agriculture and producer co-operatives with a price pooling system. Producers of all agricultural commodities, including livestock, poultry, milk products, crops (except grains in the area administered by the Canadian Wheat Board) are eligible. Inquiries: Ottawa/Hull (613) 995-5880 or any regional office *see* Part II.

Agriculture Canada *(continued)*
Farm income support *(continued)*

AGC 19
Financial assistance/fruit and vegetable producers: the Fruit and Vegetable Storage Construction Program provides financial assistance to producer groups for the construction or renovation of specialized fruit and vegetable storage facilities. By accelerating storage construction, the program aims to lengthen the marketing season for domestically produced fruit and vegetables. Inquiries: Ottawa/Hull (613) 995-5880 or any regional office *see* Part II.

AGC 20
Canadian Rural Transition Program: under this program, farmers and eligible members of their families who must cease farming owing to financial difficulty can obtain assistance in adjusting to a new way of life. The program offers a transition grant; supplementary transition assistance; relocation and exploratory assistance; training, including reimbursement of employers to encourage hiring of eligible clients; a self-employment grant to individuals who wish to start their own non-farm business; and special counselling. The program is a joint undertaking between Agriculture Canada and Employment and Immigration Canada. Inquiries: nearest Canada Employment Centre *see* Part II or the Toll-free Telephone Service section, page 17.

Market development (AGC 21 – AGC 27)

AGC 21
Genetic Improvement Programs: Records of Performance programs for dairy, beef, sheep and swine improve production and product quality through identification of genetically superior breeding stock. The Sire Loan Program provides high-quality tested sires to assist in the development of artificial insemination technology in swine and sheep. Livestock registration provides authentication for the purebred registration system in Canada, which strengthens both foreign and domestic sales capabilities. Inquiries: Ottawa/Hull (819) 994-0086.

AGC 22
Showcase herds: the Department maintains showcase herds of dairy and beef cattle, sheep and swine available in Canada. These herds provide foreign and domestic visitors with a display of modern production practices and have become the focal point of potential buyers of Canadian livestock. Inquiries: Ottawa/Hull (819) 994-0086.

AGC 23
Agricultural products/market development: the Agriculture Development Branch is responsible for market expansion and increased marketing effectiveness for Canadian agricultural products. It arranges co-operative marketing, provides market information reports and assistance in product promotion, and analyses trends of developments in agriculture and related sectors of the economy. The Branch publishes the *Retail Food Price Report*, which provides the weekly average cost of food for a family of four in Canada's urban centres. Inquiries: Ottawa/Hull (613) 995-5880 or any regional office *see* Part II.

Established by Parliament in 1957, the Canada Council aims to promote and foster the arts in Canada. To achieve this aim, the Council provides a wide range of grants and services to professional artists and arts organizations in dance, music, theatre, media arts, visual arts, and writing and publishing.

The Canada Council reports to Parliament through the Minister of Communications.

CC 1
Aid to professional artists and arts organizations: the Canada Council offers financial assistance to individual artists through its Arts Awards Service. It also provides grants to arts organizations, including dance and theatre companies, orchestras and opera companies, art galleries and artist-run centres, book and periodical publishers, film and video organizations, and national, professional service organizations in the various disciplines. Grants to organizations are administered through six sections of the Council – Dance, Media Arts, Music, Theatre, Visual Arts, Writing and Publication. To be eligible, artists must be Canadian citizens or have resided in Canada as landed immigrants for five years.

CC 2
Art Bank: the Art Bank was created in 1972 to complement the programs of the Visual Arts Section of the Council. Its objectives are to provide recognition and direct assistance to professional Canadian artists through the purchase of their work; to present contemporary Canadian art to the public in everyday environments through a rental program; and to stimulate the private and corporate collecting of art.

CC 3
Touring Office: through the Touring Office, the Council awards grants for tours by Canadian performing artists and companies in Canada and offers professional services to artists, tour managers and organizers. Canadian citizens and persons who have resided in Canada for five years as landed immigrants are eligible.

CC 4
Explorations Program: this program of grants encourages innovative projects that introduce new approaches to creative expression, extend the limits of existing art forms, cross disciplines, or fulfill specific needs in the development of the arts. Applicants must be Canadian citizens or persons who have resided in Canada as landed immigrants for five years.

CC 5
Prizes and awards: the Canada Council offers a number of prizes and awards to distinguished members of Canada's artistic and scholarly communities: the Molson Prizes, the McLuhan Teleglobe Canada Award, the Glenn Gould Prize, the Governor General's Literary Awards, the Canada Council Children's Literature Prizes, the Canada Council Translation Prizes, the Virginia P Moore Award, the Sylva Gelber Foundation Awards, the Jules Léger Prize for New Chamber Music, the Healey Willan Prize, the Victor Martyn Lynch-Staunton Awards, the Jacqueline Lemieux Prize, the J B C Watkins Award, the Peter Dwyer Scholarships, the Gershon Iskowitz Prize and the Sir Ernest MacMillan Memorial Prize in Choral Conducting.

Information: Ottawa/Hull (613) 952-1524 (Customer Service); divisional offices *see* Part II *under* cities listed above.

Canada Post Corporation collects, sorts and delivers more than six billion pieces of mail yearly within Canada, and handles mail to and from more than 165 other countries around the world.
Minister responsible:
Minister responsible for the Canada Post Corporation (Minister of Regional Industrial Expansion)

Delivery services (CPC 1)

CPC 1
Bulk mail: bag service is available when an individual or firm receives volumes of mail too great to be placed in a regular lock box, or when no box is available. Certified mail: proof-of-delivery service is available for letters and parcels mailed to addresses within Canada. COD (cash on delivery): this service ensures that the customer pays the amount due for merchandise when delivery is made within Canada. Lock box: mail delivery is available to numbered, locked compartments. Redirected mail: mail is redirected for individuals and firms that have moved or changed address. Registered mail: this system is the most secure mail service available; a receipt is issued at time of mailing, a record is kept of the article while in the post, and a signature is obtained from the addressee or representative before delivery is completed. Protection for loss exists in the form of indemnity coverage. Special delivery: mail receives priority handling at destination.

Special services (CPC 2 – CPC 7)

CPC 2
Intelpost: this service, offered by the Corporation in conjunction with Teleglobe Canada, provides facsimile transmission of printed material via microwave between 50 Canadian centres and via satellite to 43 countries. There are Intelpost centres at the main postal facilities in major cities across Canada. Inquiries: main post office in nearest major city.

CPC 3
EnvoyPost: this electronic mail service offered by Canada Post Corporation and Telecom Canada, uses the Corporation's electronic mail printing and delivery service to allow subscribers of Telecom Canada's computer-based, electronic messaging service, Envoy 100, to access the national mail stream and send messages through it to non–Envoy 100 subscribers.

Canada Post Corporation *(continued)*
Special services *(continued)*

CPC 4
Priority Post Courier: this is a service with three options – programmed, counter or international service. Programmed service involves an agreement for regular pickup and delivery between designated locations at least once a week. Priority Post Courier counter service is available for shipments brought to the counter of the nearest post office that accepts Priority Post. International Priority Post delivers to countries with their own courier delivery service.

CPC 5
Telepost: provided by Canada Post Corporation and CNCP Telecommunications, this service combines telex and letter mail delivery for same- or next-day delivery in major centres. Messages may be sent through the nearest CNCP message office or via telex. Personal opinion messages: an extension of Telepost, this service enables citizens to send their thoughts on current public issues to MPs and Senators via brief electronic mail messages. Such messages are limited to 15 words, cost less than a regular telegram or telepost message, and may be sent by calling any CNCP public message office. The dictated message will be delivered the next day.

CPC 6
Money orders: funds up to the amount of $200 may be transferred through the mail in the form of money orders.

CPC 7
Mail insurance: first and fourth class items mailed in Canada for delivery in Canada may be insured against loss in transit. There is no damage insurance available for fragile or perishable articles.

Mail classes and rates (CPC 8 – CPC 10)

CPC 8
First Class: mail is sent at the regular postal rate by the fastest scheduled transportation. Second Class: this service is available to publishers for the mailing of newspapers and periodicals. Third Class: this service is available for printed material and householder mailings. Fourth Class: this service is available to firms and individuals wishing to send parcels and quantity items weighing up to 30 kilograms, at a lower rate than First Class delivery. Such items are moved by truck or train.

CPC 9
Free and special rates: letters to the Governor General, Parliamentary Library, Senators and MPs are free. Under certain circumstances free or special rates are available for the mailing of educational films, library books, and literature for the blind.

CPC 10
Prohibited mail: it is illegal to send in the mail dangerous, toxic, explosive or flammable substances, or anything likely to injure persons or property; quickly decayable matter; intoxicating liquors; obscene or immoral matter. All parcels mailed in Canada require a signed sticker, declaring them free of any dangerous products. Inquiries: Customer Service Office *see* Part II, or nearest local post office.

Postage stamps, postal museum, forms (CPC 11 – CPC 13)

CPC 11
Philatelic programs: about 250 suggested topics are considered annually for the 30 to 50 new stamps issued each year. Design and subject matter are reviewed by a committee. Inquiries: requests for selection criteria and suggestions for new issues – Stamp Advisory Committee, Canada Post Corporation, Ottawa, Ontario K1A 0B1; information on new postage stamp issues and mail orders – National Philatelic Centre, Canada Post Corporation, Antigonish, Nova Scotia B2G 2R8.

CPC 12
Postal Museum: Canada Post Corporation maintains a postal museum that is open to the public and includes exhibits depicting the history of postal service and stamps in Canada. Researchers may use the research library by appointment. Inquiries: Ottawa/Hull (613) 995-9904, National Postal Museum, 365 Laurier Street, Ottawa, Ontario K1A OB1.

CPC 13
Federal government forms: some post offices serve as distribution outlets for federal government application forms for passports, family allowances, old age security pensions, refunds of federal excise tax on gasoline, and individual income tax returns.

The CACSW also distributes its publications to universities, colleges, regional and public libraries across Canada, provincial legislative libraries and ministries of education, and to offices of federal government women's programs.

CACSW 4
Communications: the Council informs women's groups, federal and provincial government bodies, special interest groups, the media and concerned individuals about its activities and current women's issues.

Canadian Aviation Safety Board (CASB)

Head Office
Place du Portage, Phase II
Hull, Québec
(Mail: PO Box 9120, Alta Vista Terminal,
Ottawa, Ontario K1G 3T8)

Regional Offices: Vancouver, Edmonton, Winnipeg, Toronto (Willowdale), Montréal (Dorval), Moncton.

Information: Ottawa/Hull (819) 994-3741; regional offices *see* Part II *under* cities listed above.

Established in 1984, the Canadian Aviation Safety Board is an independent body whose objective is the advancement of aviation safety. The Board investigates aviation occurrences, reports publicly on its findings and makes recommendations designed to eliminate or reduce safety deficiencies.

The Canadian Aviation Safety Board reports to Parliament through the Minister of Transport.

CASB 1
Aviation accident/incident/investigation: the Board is empowered to conduct investigations and, if necessary, public inquiries into aviation occurrences in order to determine the contributing factors and causes.

CASB 2
Occurrence reporting: a comprehensive occurrence reporting system has been set up that provides a central data base and helps the Board to identify safety deficiencies. Reporting is mandatory for all accidents and for specified types of incidents. Reports may be made voluntarily for other types of incidents or for hazardous situations and conditions.

CASB 3
Confidential reporting/aviation occurrences: persons who voluntarily report to the Board using the prescribed Confidential Aviation Safety Report form are assured protection of their identity. Confidentiality removes the fear of self-incrimination or embarrassment and encourages members of the aviation community to contribute their knowledge to the compilation of data on safety deficiencies. The special forms are available from CASB offices and at airports, flight service stations and air traffic control units across Canada.

The CBC is a publicly owned corporation established by an act of the Canadian Parliament to provide the national broadcasting service in Canada.

The CBC reports to Parliament through the Minister of Communications.

CBC 1
National broadcasting service: the CBC operates several national services which maintain high levels of Canadian content – a French television network, an English television network, English and French AM radio and FM stereo networks. Many of the programs on both the English and French television networks are available with closed captions for the hearing impaired. The percentage of the Canadian public able to receive CBC broadcasts, in their respective languages, as of 1 April 1986, is approximately as follows for each service: English television, 99; French television 99; English AM radio, 99; French AM radio, 99; English FM stereo, 72; French FM stereo, 76.

CBC 2
The Parliamentary Television Network makes the proceedings of the House of Commons available to Canadians via cable.

CBC 3
Radio Canada International is a service of the CBC on shortwave – Canada's voice abroad. RCI's information programming reflects Canada's political, economic, social and cultural spectrum to an international audience, broadcasting in 12 languages. RCI also produces programs for use by leading broadcasters in the world's major radio markets.

CBC 4
The Northern Radio Service provides locally produced programs in English and native languages, as well as national network programs, to Yukon and the Northwest Territories.

CBC 5
Northern Service Television, with the establishment in 1978 of a small production centre in Yellowknife, has the capacity for some northern production and program procurement. It supplements network programs with programs from other regions of Canada and northern-related programs purchased outside the Corporation, some of which have Inuktitut dubbed in.

CBC 6
The Northern Québec Service provides most of CBC's French and English radio and television programming, as well as some programming in Inuktitut, Cree and other native languages, to residents of Québec's North.

CBC 7
Transmission methods: these include leased channels on the Canadian space satellite Anik, plus more than 170 000 kilometres of microwave and landline connections.

CBC 8
Service for the hearing impaired: this service provides the hearing impaired with information about the CBC and its television programming by means of a Telecommunications Device for the Deaf. A hearing-impaired person who has a TDD in his or her home can call the CBC Head Office Information Centre (Ottawa) collect at (613) 733-8868, and receive the same kind of telephone service, in English or in French, that is provided to all other callers.

Ottawa, Ontario
K1A 0Z2

Information: Ottawa/Hull (613) 998-9490.

The Commission administers a national dairy policy whose objective is to achieve a healthy, viable dairy industry. It aims to provide efficient milk and cream producers with the opportunity of obtaining a fair return for their labour and investment, and to provide consumers with a continuous and adequate supply of high-quality dairy products.
Minister responsible:
Minister of Agriculture

CDC 1
Dairy products: under the National Dairy Program, the Commission co-ordinates the establishment of the national market-sharing quota for industrial milk and cream. It also establishes government-approved support prices for butter and skim milk powder and administers offer-to-purchase programs for these products. The Commission also administers a special export program for whole milk products, as well as an international marketing program on behalf of milk producers to dispose of skim milk powder that is surplus to Canadian requirements.

CDC 2
Dairy product export assistance: the CDC pays for export assistance on dairy products approved for export, subject to certain conditions.

CDC 3
Subsidies on industrial milk production: under the National Dairy Program, the Commission makes direct subsidy payments to eligible farmers on their qualifying industrial milk and cream shipments used to meet domestic and approved export requirements.

The Department is concerned with the conduct of the marketplace and aims to increase its efficiency. It strives, through legislation and regulation, to balance the interests of consumers and business, and to maintain confidence in the integrity and viability of private enterprise. The Department also supports the consumer movement.
Minister responsible:
Minister of Consumer and Corporate Affairs

Consumer aid and protection (CCA 1 – CCA 10)

CCA 1
Consumer Funding Program: the purpose of this program is to encourage and support the involvement of the voluntary sector in addressing marketplace issues that affect the majority of consumers or at least several consumer groups.

CCA 2
Consumer protection/misrepresentation and economic loss: through inspections, most food and prepackaged non-food products are examined for regulatory compliance of packaging, labelling, quantity, quality, composition and advertising declarations. Inquiries: Ottawa/Hull, textiles, precious metals, furs, prepackaged non-food products (819) 997-1177; manufactured foods (819) 997-1591; graded agricultural products (819) 997-4646; or any regional office *see* Part II *under* cities listed above; or nearest district or area office *see* Part II.

Consumer aid and protection *(continued)*

CCA 3
Consumer protection/approval and inspection of weighing and measuring devices: the Legal Metrology Branch is responsible for ensuring accurate measurement of goods and services sold on the basis of measure in the Canadian marketplace. Before a weighing and measuring device can be used in a trade application in Canada, it must receive approval from the Legal Metrology Branch in Canada, and be verified as to its conformity with relevant legislation and specifications by means of an initial inspection upon installation and subsequent periodic inspections conducted by the Department's field staff. These procedures apply to weighing and measuring devices of all types, such as light- and heavy-duty scales, electricity meters, natural gas meters, and gasoline dispensers. Inquiries: regarding the type approval of weighing and measuring devices – Legal Metrology Branch in Ottawa (613) 990-8613; regarding the initial inspection of all types of weighing and measuring devices – any regional office *see* Part II *under* cities listed above, or nearest district office *see* Part II.

CCA 4
Consumer protection/safety of consumer products: the Product Safety Branch is responsible for ensuring the safety of consumer products through the administration of the Hazardous Products Act. The Act covers such consumer products as household chemicals, toys, cribs and children's sleepwear. Inquiries: Ottawa/Hull (819) 997-1194, or any regional office *see* Part II *under* cities listed above, or nearest district or area office *see* Part II.

CCA 5
Consumer issues: a Consumer Services sub-activity identifies and analyses consumer issues and works with the business community, voluntary organizations and government departments, as appropriate, to resolve those issues. Consumer Services also administers a program of financial assistance to voluntary organizations for consumer-related projects, and administers the Tax Rebate Discounting Act. Inquiries: Ottawa/Hull (819) 997-1203, or any regional office *see* Part II *under* cities listed above.

CCA 6
Misleading advertising: the Marketing Practices Branch investigates complaints concerning violations of the misleading advertising and deceptive marketing practices provisions of the Competition Act. Under its Program of Compliance, the Branch provides opinions on the application of the Act to proposed advertisements and promotional contests. The *Misleading Advertising Bulletin*, published quarterly, contains summaries of prosecutions that resulted in convictions, and policy statements on various issues. Inquiries: Ottawa/Hull (819) 997-3333 or any area office *see* Part II. Complaints: Ottawa/Hull (819) 997-4282 or any area office *see* Part II.

CCA 7
CA identification numbers: under the Textile Labelling and Advertising Regulations, textile dealers in Canada may obtain CA identification numbers to use on their labels in place of their full names and addresses, to meet legislation requirements. The Department maintains an up-to-date record of all registered CA numbers and, upon request, will provide the company name and address corresponding to a given number. The list of CA numbers cannot be reproduced and distributed.

CCA 8
Conflict of interest: the Assistant Deputy Registrar General is charged with the administration of the Conflict of Interest and Post-Employment Code for Public Office Holders, and the application of the conflict of interest compliance measures to Ministers of the Crown, their staff, parliamentary secretaries, Governor-in-Council appointees and ministerial appointees. Inquiries: Ottawa/Hull (613) 995-0721.

CCA 9
Public Registry: the Public Registry contains public documents, stating methods of compliance, and declarations made by public office holders in compliance with the measures set out in the Conflict of Interest and Post-Employment Code for Public Office Holders. Inquiries: Ottawa/Hull (613) 995-0721.

CCA 10
Publications: the public may obtain departmental publications either by writing to the head office or by calling the Department in the Ottawa/Hull area at (819) 997-3284.

Commercial services (CCA 11 – CCA 18)

CCA 11
Incorporation of businesses: the Corporations Branch administers several federal acts, including the Canada Corporations Act and the Canada Business Corporations Act. Under the latter are incorporated all federal business corporations, including investment and small loan companies, with the exception of financial intermediaries. The Canada Corporations Act still applies to the establishment and function of all federal non-profit corporations. The Corporations Branch processes submissions made by federal corporations, in accordance with the acts it administers. It also provides public access to corporate statutory filings and ensures compliance with the applicable legislation. Inquiries: Ottawa/Hull (819) 997-1142, or any regional office *see* Part II *under* cities listed above, or nearest district office *see* Part II.

Consumer and Corporate Affairs Canada *(continued)*
Commercial services *(continued)*

CCA 12
Bankruptcy: in its administration of the Bankruptcy Act, the Bankruptcy Branch provides assistance in filing consumer bankruptcies, and protects the rights and interests of both creditors and debtors during bankruptcy proceedings. It regulates the bankruptcy process through the licensing and supervision of trustees-in-bankruptcy and is responsible for the detection of abuses of the bankruptcy process both before and after bankruptcy. The Branch also ensures, where required, that investigations and prosecution take place. It also maintains and disseminates general and statistical information on bankruptcy. Inquiries: Ottawa/Hull (819) 996-3964, or any regional office *see* Part II *under* cities listed above, or nearest district office *see* Part II.

CCA 13
Competition policy: the Director of Investigation and Research, in administering the Competition Act, receives complaints and conducts inquiries with respect to conspiracies, mergers and trade practices affecting competition. Under the Program of Compliance, the Director provides opinions on the application of the Act to proposed plans or policies that businesses submit to him. Inquiries and complaints: Ottawa/Hull (819) 994-0798.

CCA 14
Copyright and industrial design: the Copyright and Industrial Design Branch administers the Copyright Act, which provides for the voluntary registration of copyright for original artistic, dramatic, literary or musical works; the Industrial Design Act, which provides for the registration of industrial designs of original shape or pattern or in the form of ornamentation applied to an article of manufacture; and the Timber Marking Act, which provides for the registration of marks that are used to identify the ownership of timber floated down inland waterways in Québec, Ontario and New Brunswick. Inquiries: Ottawa/Hull (819) 997-1725, or any regional office *see* Part II *under* cities listed above, or nearest district office *see* Part II.

CCA 15
Copyright Appeal Board: the Board is responsible for approving the fees, charges or royalties that performing rights societies propose to collect in an ensuing calendar year for licenses to perform dramatic or musical works in Canada. Inquiries: Ottawa/Hull (819) 994-4791.

CCA 16
Patents: the Patent Office, in addition to issuing patents, gathers and disseminates technological information found in the world's patent documents. The Canadian Patent Office is offering a new service to technology-based small business: it will do a state-of-the-art search of technological information in Canadian and foreign patents and will provide a sample of what patents are available in the field of interest. The information can be used, among other things, to prevent duplication of research, find solutions to technological problems, and to identify new products for marketing. A patent provides 17-year protection from others making, using or selling an invention not their own. A patent also helps inventors to sell or license their product. As there is no protection until the patent has been issued, dated notes witnessed in confidence should be kept during the development of an invention. Although it is possible for an individual to apply for a patent, a registered patent agent should be consulted. Patent Office. Inquiries: Ottawa/Hull (819) 997-1936.

CCA 17
Trade marks: the Trade Marks Office provides for the registration of trade marks, words, slogans, designs or any combination of these that serves to distinguish the goods and services of one person or firm from those of another. Owners of trade marks have the right to prevent others from using their trade marks for the same goods or services. Although it is not necessary to register a trade mark to acquire ownership of a trade mark, registration does establish broader rights, such as national protection and the right to allow others to use the trade mark. (Franchising requires registration of the trade mark and of the franchisee as a registered user of the trade mark.) The Office also provides and maintains a computerized data base of all registered trade marks, their owners with their addresses, the goods and services sold under the trade mark, pending and refused applications, and other commercially valuable information. For information from the computerized data base, the public should contact a registered trade mark agent or any of the searchers of records listed in the yellow pages of the telephone book; for general information on the registration of trade marks, call the Trade Marks Office. Inquiries: Ottawa/Hull (819) 997-1936.

CCA 18
Document registration: the Registration Division of the Office of the Assistant Deputy Registrar General is a central depository for documents issued or registered by the Registrar General of Canada under the Formal Documents Regulations and other statutes. These include documents on appointments by the Governor in Council, land grants from the Crown, and other documents, such as those concerning the Railway Act and the Canada Corporations Act. Inquiries: Ottawa/Hull (819) 997-1265.

Consumer and Corporate Affairs Canada *(continued)*

Policy co-ordination and planning (CCA 19)

CCA 19
The Bureau of Policy Co-ordination is responsible for conducting research and policy analysis activities related to consumer and corporate affairs, including co-ordination of all communications and policy-related activities. The Bureau undertakes reviews of legislation administered by the department. It has overall responsibility for evaluating and periodically auditing all departmental programs, and co-ordinates planning activities at the corporate level. The Bureau comprises five branches: Legislative Review Branch; Corporate Services and Research Branch; International and Intergovernmental Affairs Branch; Communications Branch; Audit, Evaluation and Control Branch; and Planning and Management Services Branch. Inquiries: Ottawa/Hull (819) 997-2938.

Correctional Investigator (Office of the) (CI)

PO Box 2324, Station D
Ottawa, Ontario
K1P 5W5

Information: Ottawa/Hull (613) 990-2692.

Minister responsible:
Solicitor General of Canada

CI 1
The Office of the Correctional Investigator investigates complaints from inmates, as defined in the Penitentiary Act. It also reports on problems of inmates, raised through complaints, that come within the responsibility of the Solicitor General of Canada, except for problems where the person complaining has not, in the opinion of the Correctional Investigator, exhausted all available legal or administrative remedies; and problems concerning any subject matter that ceased to exist or to be the subject of complaint more than one year before the lodging of the complaint with the Commissioner (Correctional Investigator); and problems concerning any subject matter or conditions under the responsibility of the Solicitor General of Canada that touch on the preparation of material for consideration of the National Parole Board. Further, the Commissioner need not investigate if the subject matter of a complaint has previously been investigated or if, in the opinion of the Commissioner, a person complaining has no valid interest in the matter.

EPC 4
Worker's compensation agreements: the federal government assumes 75 per cent of the cost involved in payments to civil defence workers injured during the course of civil defence training or duties. Claims for compensation must be documented and approved by the compensation board of the province concerned. This program may assist municipalities indirectly. Inquiries: provincial compensation boards.

Emergency Preparedness Canada *(continued)*

EPC 5
Disaster financial assistance: EPC administers the arrangements for disaster financial assistance under which the federal government absorbs an increasing proportion of eligible provincial expenditures for disaster relief according to formal agreements with the provinces, based on population. The arrangements were established to provide for assistance to the provincial governments when the cost of dealing with the effect of a disaster would place an undue burden on the provincial economy. Municipalities are reimbursed by the provincial government for eligible expenditures. The province then recovers the appropriate sum from the federal government.

EPC 6
Joint Emergency Planning Program: under this program, costs for approved emergency planning projects are shared with the provinces. Municipalities may submit project proposals to the provincial government for consideration and approval. Projects approved by the province are then forwarded to the federal government.

Skill Shortages Program: this program helps employers obtain workers with the skills that are designated as being in shortage at the regional or national level and that employers need to remain competitive. Under the program, EIC partially reimburses employers for costs relating to relocation, training costs and employees' wages, and purchases training for unemployed workers. Inquiries: any EIC regional office *see* Part II *under* cities listed above, or nearest Canada Employment Centre *see* Part II or the Toll-free Telephone Service section, page 17.

EIC 25

Employer incentives/industrial training/training for employees: the federal government reimburses employers for a portion of the training costs incurred for approved employee training projects and provides consultation services concerning these projects. National Industrial Training Program. Inquiries: nearest Canada Employment Centre *see* Part II or the Toll-free Telephone Service section, page 17.

EIC 26

Employer-employee consultation service: financial incentives are available to encourage consultation between employers and their employees to deal jointly with the human resource side of company planning and to find ways of preventing or overcoming problems connected with technological updating, high employee turnover, declining productivity, or other disruptions. Industrial Adjustment Service. Inquiries: nearest Canada Employment Centre *see* Part II or the Toll-free Telephone Service section, page 17.

EIC 27

Employers' assistance/training for employees in highly skilled blue-collar trades and occupations: the federal government provides financial assistance to firms willing to initiate or expand training in occupations of national importance. Critical Trade Skills Training. Inquiries: nearest Canada Employment Centre *see* Part II or the Toll-free Telephone Service section, page 17.

EIC 28

Build a Winning Team: this booklet outlines a systematic approach to the selection and recruitment of the best staff for any business. Inquiries: nearest Canada Employment Centre *see* Part II or the Toll-free Telephone Service section, page 17.

EIC 29

Federal Contractors Program: this program aims to ensure that suppliers of goods and services to federal government departments achieve and maintain a fair and representative work force. It applies to suppliers who have 100 or more employees and who are bidding on contracts worth $200 000 or more. Such suppliers must, at the time of bidding, make a formal commitment to implement employment equity and, on receipt of a contract, must fulfill that commitment in accordance with criteria established by the Canada Employment and Immigration Commission. These criteria specify steps contractors should take to ensure that women, aboriginal peoples, visible minorities and persons with disabilities are fairly treated and appropriately represented in their work forces. The program enforces its requirements by accepting bid submissions only from suppliers who have enclosed in their bid package a signed certificate of commitment to implement employment equity or who have quoted a pre-assigned number, and by reviewing contractors on-site to verify whether they are actually implementing employment equity. If contractors are found not to be implementing employment equity, CEIC may, after a process of inquiry and appeal, disallow them from bidding on future federal contracts. A consulting service is available on request and free of charge to advise on and assist in implementing employment equity. Employment Equity Branch. Inquiries: any EIC regional office *see* Part II *under* cities listed above.

EIC 30

Legislated Employment Equity Program: this program administers the Employment Equity Act, which requires federally regulated employers with 100 or more employees to implement employment equity, in order to ensure a representative work force, and to report annually on their results. Employers' annual reports also contain data on their work force such as salary and occupational group distribution, as well as data on their staffing activities, including hirings, promotions and terminations. An annual report, consisting of a consolidation of the employers' reports together with an analysis of their data, is made to Parliament. This and employers' annual reports are available to the public. The program also provides technical expertise to employers on the requirements of the Employment Equity Act. Inquiries: any EIC regional office *see* Part II *under* cities listed above.

EIC 31
Consultative Services: this group aims to help private-sector employers remove discriminatory practices in employment and to achieve and maintain appropriate representation of women, aboriginal peoples, persons with disabilities, and visible minorities (the designated groups) at all levels within their organizations. This unit provides consultative services to private-sector employers and unions on the development of employment equity plans that would include goals and special measures for increasing, where necessary, the representation of the designated groups in the workplace. The unit also develops and delivers training seminars to employers covered by the Legislated Employment Equity and Federal Contractors programs. In addition, the unit maintains ongoing liaison with representatives of designated groups, unions and employer groups. Inquiries: any EIC regional office *see* Part II *under* cities listed above.

Employment stimulation programs (EIC 32 – EIC 40)

EIC 32
Local Employment Assistance and Development (LEAD): EIC provides assistance through contributions and grants to increase the number of permanent jobs in localities of chronically high unemployment. Organizations representing community development interests may sponsor LEAD Infrastructure Projects, LEAD Enterprise Projects, or LEAD corporations. Inquiries: nearest Canada Employment Centre or Employment Development Branch office *see* Part II or the Toll-free Telephone Service section, page 17.

EIC 33
Canada Works: EIC provides incremental, productive, term employment by funding useful projects in various communities. Inquiries: nearest Canada Employment Centre or Employment Development Branch office *see* Part II or the Toll-free Telephone Service section, page 17.

EIC 34
Modified Industry and Labour Adjustment Program (MILAP): this program is a series of special labour adjustment measures designed to respond to unemployment. It aims to help designated communities and workers in the parts of Canada most adversely affected by the decline of permanent jobs in their local labour market. The federal government introduced the two-year, $43-million MILAP undertaking on 21 June 1984. Inquiries: nearest Canada Employment Centre *see* Part II or the Toll-free Telephone Service section, page 17.

EC 35
Community Futures: this program assists communities in their effort to identify, develop and implement measures to help individuals adjust to their economic environment and to expand employment. It focusses on selected non-metropolitan communities faced with chronic high unemployment or major permanent layoffs. The first step in introducing Community Futures in selected communities is the establishment of a representative Community Futures Committee composed of local representatives. The program options from which the committee can choose are Self-Employment Incentive, Business Development Centres, Purchase of Institutional Training, Relocation Assistance and Community Initiatives Fund. Inquiries: Ottawa/Hull (819) 994-3242, or any regional EIC office *see* Part II *under* cities listed above.

EIC 36
Job Entry: one of the six programs of the Canadian Jobs Strategy, this program is designed to integrate formal training and work experience. There are five program options. The Entry option assists unemployed young men and women making a transition from school to work. Re-entry assists women making a transition from home to the labour market. Co-operative Education provides school-based work-study programs for students. Future Summer Programming will provide training and work experience related to the career path of students planning to return to school. The Direct Purchase Training option provides training purchased from public or private institutions to those entering or re-entering the labour market. In addition, this option provides language training to immigrants, interprovincial migrants and natives who are not fluent in either official language. Inquiries: nearest Canada Employment Centre *see* Part II or the Toll-free Telephone Service section, page 17.

EIC 37
Job Development: EIC provides a blend of training and work experience for individuals who have been jobless for 24 of 30 preceding weeks, so that they will be able to participate more effectively in the labour market. This program, part of the Canadian Jobs Strategy, provides for placement into subsidized projects or individually subsidized jobs, and encourages the private sector to provide training and work experience in real work settings. Clients may participate in the program for up to 52 weeks or may move from Job Development to other employment programs. Activities may concentrate on specific industrial sectors, with the goal of bringing clients up to industry standards in a set of generic skills related to local industry needs. Inquiries: nearest Canada Employment Centre or Employment Development Branch office *see* Part II or the Toll-free Telephone Service section, page 17.

EIC 38
Skill Investment: one of the six programs in the Canadian Jobs Strategy, Skill Investment brings help to workers whose jobs are threatened by changing technology and market conditions. It gives workers a chance to learn new skills before they are laid off or their existing skills become redundant. Under this program, the federal government subsidizes the training costs and wages of workers on full- or part-time training leave; financially supports training for self-employed workers, owners, managers and employees of small businesses; contributes to training trust funds established by workers and employers. Inquiries: nearest Canada Employment Centre *see* Part II or the Toll-free Telephone Service section, page 17.

EIC 39
Innovations: the National Labour Market Innovations Program provides financial assistance for pilot and demonstration projects that test new solutions to labour market problems. There are no predetermined limits: individuals, business, labour organizations, non-profit groups, educational and training agencies may apply. Proposed projects must not already be part of on-going activities or programs. They may focus on such labour market concerns as new training technologies, new delivery systems for learning, innovative bridging programs to help workers entering or re-entering the work force, and alternative work arrangements related to labour market adjustments. Inquiries: nearest Canada Employment Centre *see* Part II or the Toll-free Telephone Service section, page 17.

EIC 40
Canadian Rural Transition Program (CRTP): under this program, farmers and eligible members of their families who must cease farming owing to financial difficulty can obtain assistance in adjusting to a new way of life. The program offers a transition grant; supplementary transition assistance; relocation and exploratory assistance; training, including reimbursement of employers to encourage hiring of eligible clients; a self-employment grant to individuals who wish to start their own non-farm business; and special counselling. The program is a joint undertaking between Agriculture Canada and Employment and Immigration Canada. Inquiries: nearest Canada Employment Centre *see* Part II or the Toll-free Telephone Service section, page 17.

Unemployment Insurance (EIC 41 – EIC 51)

EIC 41
Unemployment insurance/general: temporary financial aid is available to qualified unemployed workers who are seeking jobs. Inquiries: nearest Canada Employment Centre *see* Part II or the Toll-free Telephone Service section, page 17.

EIC 42
Unemployment Insurance Work Sharing Program: EIC aims to avoid temporary layoffs by offering alternative income support to eligible claimants who are employed under an approved work-sharing agreement. Workers share the available work to avoid the layoff of fellow employees and are partially compensated for reduced hours by the payment of unemployment insurance work-sharing benefits. Training is also an alternative on work-sharing days. A limited number of pilot projects demonstrating the use of work sharing in cases of permanent decline will also be carried out. Inquiries: nearest Canada Employment Centre *see* Part II or the Toll-free Telephone Service section, page 17.

EIC 43
Unemployment insurance/employment training: income support is available for training participants who have been referred by the Commission. Inquiries: nearest Canada Employment Centre *see* Part II or the Toll-free Telephone Service section, page 17.

EIC 44
Unemployment insurance/supplemental benefit: employers, either on their own initiative or through the collective bargaining process, may introduce a supplemental unemployment benefit (SUB) plan for their employees. The object of a SUB plan is to supplement the unemployment insurance benefit paid to workers by Employment and Immigration Canada during periods of unemployment due to lack of work, illness or pregnancy. SUB plans must be approved by EIC so that SUB payments are not considered as earnings for unemployment insurance purposes and are not deducted from unemployment insurance benefits. Coverage and Premium Policy Division, Employment and Insurance Services. Inquiries: Ottawa/Hull (613) 994-2742.

EIC 45
Unemployment insurance appeals: claimants and employers have the right to appeal to a federally appointed independent body against decisions by the Canada Employment and Immigration Commission on claims for unemployment insurance. Inquiries: nearest Canada Employment Centre *see* Part II or the Toll-free Telephone Service section, page 17.

EIC 46
Unemployment insurance benefits at age 65: financial aid to qualified workers is available in the form of lump-sum payments to workers who reach age 65. Inquiries: nearest Canada Employment Centre *see* Part II or the Toll-free Telephone Service section, page 17.

EIC 47
Unemployment insurance benefits/fishermen: different kinds of temporary financial aid are available for qualified unemployed fishermen. Inquiries: nearest Canada Employment Centre *see* Part II or the Toll-free Telephone Service section, page 17.

Unemployment insurance benefits/maternity: temporary financial aid is available to qualified workers off work because of pregnancy. Inquiries: nearest Canada Employment Centre *see* Part II or the Toll-free Telephone Service section, page 17.

EIC 50
Unemployment insurance benefits/adoption: temporary financial aid is available to qualified workers off work because of adoption. Inquiries: nearest Canada Employment Centre *see* Part II or the Toll-free Telephone Service section, page 17.

EIC 51
Unemployment insurance/reduction of employer's premium: a reduction of the employer's unemployment insurance premium may be obtained through registration of an Employer's Wage Loss Replacement Plan. Employer Registration Division. Inquiries: by phone – Bathurst (506) 548-7906; by mail – Employer Registration Division, PO Box 10000, Bathurst, New Brunswick E2A 4L8, or nearest Canada Employment Centre *see* Part II or the Toll-free Telephone Service section, page 17.

Canadian Government Annuity Program (EIC 52)

EIC 52
Canadian Government Annuity Program: the purpose of the Canadian Government Annuity Program is to meet its obligations to Canadians who purchased a Canadian government annuity either privately or through their employer's pension plan, by paying out annuities that have come due and by administering those that have not yet matured. Inquiries: Canadian Government Annuities Office, Box 12000, Bathurst, New Brunswick, E2A 4L8, (506) 548-7972 or *see* the Toll-free Telephone Service section, page 17.

Immigration (EIC 53 – EIC 69)

EIC 53
Visitors to Canada/legal entry: persons seeking to enter Canada must be interviewed by an immigration officer at the port of entry to determine whether they may be legally admitted. Business people, foreign students, foreign workers and tourists who require a visa to come to Canada need to apply and be interviewed by a Canadian visa officer at an overseas post before arriving in Canada. Immigration. Inquiries: nearest Canada Immigration Centre *see* Part II or the Toll-free Telephone Service section, page 17.

EIC 54
Immigration examinations: Canadian citizens and permanent residents who have not lost their permanent status automatically have the right to re-enter and remain in Canada; however, they must first be interviewed by an immigration officer at the port of entry. Immigration. Inquiries: nearest Canada Immigration Centre *see* Part II or the Toll-free Telephone Service section, page 17.

EIC 55
Visas/applications: applications are available overseas for employment, student, visitor and immigrant visas. Immigration. Inquiries: nearest Canada Immigration Centre *see* Part II or the Toll-free Telephone Service section, page 17.

EIC 56
Independent immigrants/immigration to Canada: assisted relatives, retired people, entrepreneurs, the self-employed and others applying on their own initiative, are eligible to immigrate to Canada as independent immigrants. Except for retired people, all are selected according to criteria in the point system. Immigration. Inquiries: nearest Canada Immigration Centre *see* Part II or the Toll-free Telephone Service section, page 17.

EIC 57
Immigration/Family class: anyone who is at least 18 years of age and is a Canadian citizen or a permanent resident may sponsor close relatives for immigration to Canada under the Family Class Program. Immigration. Inquiries: nearest Canada Immigration Centre *see* Part II or the Toll-free Telephone Service section, page 17.

EIC 58
Sponsoring a relative/immigration: Canadian citizens or permanent residents who offer to sponsor or help a relative to immigrate to Canada must sign a legally binding agreement promising support for a specific period of time. Immigration. Inquiries: nearest Canada Immigration Centre *see* Part II or the Toll-free Telephone Service section, page 17.

EIC 59
Refugees/Convention class: people eligible to immigrate to Canada under the convention refugee class are those who are unable or unwilling to return to their country of nationality or residence because they fear persecution for reasons of race, religion, nationality, membership in a particular social group or political opinion; who show evidence that they could successfully settle in Canada with the assistance provided by the government and voluntary organizations; and who either fall within the purview of the annual plan for government-assisted refugees or whose resettlement is funded by a private group, a relative or from their own or private resources. Immigration. Inquiries: nearest Canada Immigration Centre *see* Part II or the Toll-free Telephone Service section, page 17.

Employment and Immigration Canada *(continued)*

EIC 60
Refugees/Special Designated classes: many displaced or persecuted persons are accepted under special, designated classes, of which three are currently in effect: the self-exiled, Indo-Chinese, and political prisoners and oppressed persons. Other persons are admitted for humanitarian reasons according to special, administrative immigration programs approved by the Minister, of which six are currently in effect: programs accepting persons from El Salvador, Iran, Iraq, Lebanon, Sri Lanka and Guatemala. Private organizations, which must sign a legally binding agreement promising support for one year, may apply to sponsor a refugee or designated-class person to immigrate to Canada. Immigration. Inquiries: nearest Canada Immigration Centre *see* Part II or the Toll-free Telephone Service section, page 17.

EIC 61
Refugees/admissibility loans: loans for medical examinations are available to refugees and other persons in the Designated Immigration class. Immigration. Inquiries: nearest Canada Immigration Centre *see* Part II or the Toll-free Telephone Service section, page 17.

EIC 62
Transportation loans: loans are available to refugees and other immigrants for paying the cost of transportation to their destination in Canada as well as related costs. Immigration. Inquiries: nearest Canada Immigration Centre *see* Part II or the Toll-free Telephone Service section, page 17.

EIC 63
Immigrant Settlement and Adaptation Program: in addition to the settlement services offered by the federal and provincial governments, a variety of settlement services are purchased by EIC from voluntary organizations across the country to help immigrants successfully adapt to life in Canada. Immigration. Inquiries: nearest Canada Immigration Centre *see* Part II or the Toll-free Telephone Service section, page 17.

EIC 64
Adjustment Assistance Program: the Department provides financial assistance to certain indigent immigrants to Canada in need of help until their available income matches their needs. The Settlement Branch, Immigration, is responsible for the policy and development of the program, but it is delivered by the Employment Branch through the local Canada Employment Centre. Immigration. Inquiries: nearest Canada Employment Centre *see* Part II or the Toll-free Telephone Service section, page 17.

EIC 65
Host Program for Refugee Settlement: this is a pilot program designed to facilitate the settlement and adaptation into Canadian communities of government-assisted refugees and designated-class persons requiring financial support under the Adjustment Assistance Program, and who would benefit from the assistance of a host group. Host groups will provide direct emotional support and orientation to both government- and privately sponsored refugees. Immigration. Inquiries: nearest Canada Immigration Centre *see* part II or the Toll-free Telephone Service section, page 17.

EIC 66
Programs for Special-Needs Refugees: the Department provides for the admission and settlement of special-needs refugees and members of a designated class who under normal circumstances would not qualify for admission to Canada, but who, with some additional settlement assistance, would be capable of achieving self-sufficiency within a reasonable period of time. There are four programs for refugees with special needs: the Handicapped Refugee Program, Tubercular Refugee Program, Joint Assistance Program, and Unaccompanied Minors Program. Immigration. Inquiries: nearest Canada Immigration Centre *see* Part II or the Toll-free Telephone Service section, page 17.

EIC 67
Returning residents' permits: permanent residents (but not Canadian citizens) who wish to leave Canada for a temporary period may apply for a returning resident's permit to produce on their return as evidence that they did not intend to abandon their Canadian residency. EIC advises permanent residents intending to remain outside Canada for more than 183 days in any 12-month period to obtain such a permit. Immigration. Inquiries: nearest Canada Immigration Centre *see* Part II or the Toll-free Telephone Service section, page 17.

EIC 68
Immigration inquiries: anyone denied permission to come into Canada at a port of entry, or to remain once in Canada, has the right to be heard by an adjudicator. Immigration. Inquiries: nearest Canada Immigration Centre *see* Part II or the Toll-free Telephone Service section, page 17.

EIC 69
Deportation/immigration: visitors or permanent residents whose presence in Canada may endanger public health or welfare or who otherwise are in violation of the Immigration Act may be required to leave after an immigration inquiry. Immigration. Inquiries: nearest Canada Immigration Centre *see* Part II or the Toll-free Telephone Service section, page 17.

Petroleum monitoring and incentives (EMR 27 – EMR 29)

EMR 27
Petroleum Monitoring Agency (PMA): this federal fact-finding organization was established in August 1980 by Order in Council under the Inquiries Act, and today derives its authority from the Energy Monitoring Act. The Agency provides public and private users with comprehensive and objective information about the status and performance of the oil and gas industry in Canada. The agency reports semi-annually on production, revenue and profits, flow of funds, capital expenditures, ownership and control, and other results and measures of industry performance. Petroleum Monitoring Agency. Inquiries: Ottawa/Hull (613) 996-4444.

EMR 28
Canadian Ownership and Control Determination Program (COCD): this program measures the Canadian ownership rate (COR) and determines the control status (CS) of persons carrying on exploration activity in the Canada Lands who require a COR/CS determination in order to receive incentives under the Petroleum Incentives Program. This program, to the extent that it is linked to the Petroleum Incentives Program, is being phased out as a result of the Western Accord of 28 March 1985. Petroleum Incentives Administration. Inquiries: Ottawa/Hull (613) 996-2611.

EMR 29
Petroleum Incentives Program (PIP): this program is being phased out as a result of the Western Accord of 28 March 1985 and will terminate on 31 December 1987. PIP is available to Canadians who participate in prescribed activities in the Canada Lands. Benefits depend on the Canadian ownership rate and control status of applicants, as well as on the type of undertaking. Qualified applicants for incentives are corporations, partnerships, trusts and individuals. Petroleum Incentives Administration. Inquiries: Ottawa/Hull (613) 996-2611.

Emergency supplies (EMR 30 – EMR 31)

EMR 30
Emergency oil stocks/inventory: the Energy Commodities Sector studies the ability of industry reserves to meet supply shortfalls and to meet the need for additional oil stocks. Oil Branch, Energy Commodities Sector. Inquiries: Ottawa/Hull (613) 995-2500.

EMR 31
Energy Supplies Allocation Board: established by the Energy Supplies Emergency Act, 1979, the Board is responsible, in a national emergency, for the allocation of crude oil to refiners, for the allocation of refined petroleum products to wholesale customers, and for the administration of a rationing program to reinforce the allocation programs as required. When there is no emergency, the Board monitors trends in petroleum supply and demand in order to evaluate the need for recommending the introduction of a mandatory allocation program as provided by the Act. Energy Supplies Allocation Board (ESAB). Inquiries: Ottawa/Hull (613) 995-2500.

Energy conservation (EMR 32 – EMR 57)

Home energy (EMR 32 – EMR 35)

EMR 32
Buildings and residences/Super Energy Efficient Home (SEEH) Program: this program will provide a total of $50 million to encourage the construction of up to 20 000, super energy efficient, R-2000 homes across the country over the seven-year period from 1984-85 to 1990-91. Funding available under the program will be used to provide assistance for the design, evaluation and identification of houses constructed to the R-2000 standard; to train builders and tradespeople in the appropriate techniques involved in R-2000 construction; and to increase the public's awareness of the benefits of owning a super energy-efficient, R-2000 home. EMR developed this program in co-operation with various industry groups, particularly the Canadian Home Builders' Association (CHBA), which is the primary delivery agent for the program. Technology Transfer and Demonstration Programs Division, Energy Conservation Branch, Energy Policy, Programs and Conservation Sector. Inquiries: any Conservation and Renewable Energy Office *see* Part II *under* the cities listed above or *see* the Toll-free Telephone Service section, page 17; in Ottawa/Hull (613) 995-1118.

EMR 33
HEATLINE: this toll-free, telephone advisory service responds over the phone and through the provision of publications, to public inquiries concerning residential energy conservation and heating systems. It answers questions on home energy management, insulation, draftproofing (caulking and weatherstripping), renewable energy sources (such as solar heat and wood) and conventional sources of energy. Conservation and Non-Petroleum Sector. Inquiries: to call the HEATLINE *see* the Toll-free Telephone Service section, page 17; in Ottawa/Hull (613) 995-1801.

EMR 34
Northern residential energy standards: in conjunction with the provincial and territorial governments, EMR has developed and issued for comment as a fiscal draft, energy conservation standards for northern housing, based on climatic conditions, energy supplies and costs, and future housing requirements, with a view to applying the standards to all federally funded and insured housing units constructed. EMR has established a committee to develop, review and approve the standards, which includes representatives from the involved provinces and territories; Energy, Mines and Resources Canada; Indian and Northern Affairs Canada; Public Works Canada; and the Canada Mortgage and Housing Corporation. Energy Conservation Branch, Energy Policy, Programs and Conservation Sector. Inquiries: Ottawa/Hull (613) 995-1118.

EMR 35
Remote Community Demonstration Program: this program promotes awareness and implementation of oil reduction and displacement opportunities in remote communities in the territories and provinces. These opportunities consist of alternative energy supply technologies and energy conservation measures in the generation of electrical power and in space heating. In two phases over the period from summer 1982 to March 1989, the program will first, assist remote communities in identifying and assessing their conservation and off-oil options and second, demonstrate a limited number of technically and economically feasible options in selected communities across the country. Other authorities responsible for or having a direct interest in remote community energy supply are eligible for assistance under the program. Renewable Energy Branch, Energy Policy, Programs and Conservation Sector. Inquiries: any Conservation and Renewable Energy Office *see* Part II *under* the cities listed above or *see* the Toll-free Telephone Service section, page 17.

Energy conservation in industry, commerce, agriculture (EMR 36 – EMR 43)

EMR 36
Energy conservation: the Energy Conservation Branch provides policy analysis, program planning, monitoring, review and evaluation, and develops and implements the conservation elements of the National Conservation and Alternative Energy Initiative. Energy Policy, Programs and Conservation Sector.

Energy conservation in industry, commerce, agriculture *(continued)*

EMR 37
Conservation and Renewable Energy Offices: CREOs in each province and the territories are equipped to provide a full range of services to the public and to the industrial, commercial and institutional sectors on energy options and programs. In addition to administering a wide range of energy conservation and renewable and alternate energy programs, CREOs provide valuable advice to the government of Canada on specific regional energy concerns. Energy Policy, Programs and Conservation Sector. Inquiries: nearest Conservation and Renewable Energy office *see* Part II *under* the cities listed above or *see* the Toll-free Telephone Service section, page 17.

EMR 38
Industry Energy Research and Development Program (IERD): this program aims at promoting the development of new and improved processes, systems, products and equipment that will increase the efficiency of energy use throughout industry, and at encouraging the widest possible use of the technology developed under the program. The IERD Program will normally contribute up to 50 per cent of the eligible costs of approved projects undertaken by companies established in Canada, trade and research organizations, and consulting firms. Industrial Energy Division, Energy Conservation Branch, Energy Policy, Programs and Conservation Sector. Inquiries: Ottawa/Hull (613) 995-9447.

EMR 39
Canadian Industry Program for Energy Conservation (CIPEC): under this program established in 1976, industry works in co-operation with the federal government to meet national energy conservation objectives. All major industrial sectors are represented through 14 active task forces covering the following areas: chemicals, electrical and electronic equipment, ferrous metals, food and beverage, general manufacturing, industrial minerals, machinery, mining and metallurgy, petroleum refining, plastics, pulp and paper, textiles, transportation (manufacturing) and wood products (western and eastern). These task forces, which rely on trade associations and their established communication networks for the conduct of CIPEC activities, promote energy conservation in industry, report on conservation efforts and maintain a dialogue with the federal and provincial governments. Individual task forces are engaged in information exchange programs, recruitment, publications, technical meetings and seminars. EMR provides direct financial support for the administration of CIPEC and in consultation with industry has instituted several programs and information and training activities. CIPEC has achieved substantial progress toward energy efficiency goals. In 1985, one year ahead of time, industry met its goal to improve energy efficiency by 23 per cent. Industrial Energy Division, Energy Conservation Branch, Energy Policy, Programs and Conservation Sector. Inquiries: Ottawa/Hull (613) 995-9447.

EMR 40
Energy Management and Technology Transfer Program (EMTT): this program is designed to help industry, commerce and institutions reduce energy consumption by increasing their general awareness and technical knowledge of energy management practices, conservation technologies and the potential for attainable achievements. In co-operation with other government departments, utility companies and the private sector, the program disseminates information on the availability and benefits of energy-related technologies for improving energy use. It provides assistance through manuals, seminars, workshops and case studies. The manuals consist of a series of How To publications on improving energy efficiency, which are prepared in consultation with industrial and commercial associations and utilities. A few examples of publications available include *Energy Management – Employee Participation, Conducting an Energy Audit, Process Insulation, Combustion, Boiler Plant Systems* and *Refrigeration and Heat Pumps.* Seminars and workshops on energy management, conducted nationally and regionally by experts, are presented in co-operation with energy conservation task forces, trade associations and EMR's Conservation and Renewable Energy Offices (CREOs) across Canada. Assistance with the preparation and presentation of a seminar or workshop is available. Industrial Energy Division, Energy Conservation Branch, Energy Policy, Programs and Conservation Sector. Inquiries: any Conservation and Renewable Energy Office *see* Part II *under* the cities listed above or *see* the Toll-free Telephone Service section, page 17.

EMR 41
Commercial, Institutional, Agricultural Energy Management Task Force: this program aims to promote energy conservation and the efficient use of energy resources in these sectors. There are six national task forces and 10 regional task forces currently operating under the program. Their main functions are to exchange and disseminate energy conservation information and accomplishments; to serve as diverse focal points for discussions on measures for overcoming constraints to improvement of energy efficiency, whether technical, procedural or financial; to establish targets for improvement in energy use and to develop a system for annual reporting of progress; to serve as a major communications link on energy matters between government, the commercial sector, institutions, agriculture, the media and the public. Energy Conservation Branch, Energy Policy, Programs and Conservation Sector. Inquiries: Ottawa/Hull (613) 995-9447.

EMR 42
Federal Energy Management Program: this program aims to accelerate cost-effective energy management activities in federal government buildings and for vehicle fleets. It provides services on a cost-recovery basis for utility and facility audits, preparation of plans and specifications, and training and information dissemination. Projects with a good demonstration value in retrofit are emphasized and funding priorities are set for study and analysis reports and capital improvements. Energy Conservation Branch, Energy Policy, Programs and Conservation Sector. Inquiries: Ottawa/Hull (613) 995-9447.

EMR 43
Class 34 energy conservation equipment tax incentive program: the 25 May 1976 federal budget added Class 34 to Schedule II, Capital Cost Classes of the Income Tax Regulations. This entitles taxpayers to a three-year, modified, straight-line tax write-off to cover the capital cost of new equipment that would normally be placed in Class 2 or Class 8 of the Regulations. On 11 December 1979 the period was extended to cover assets purchased before 1985, and significant additions were made to the list of qualifying materials. On 26 February 1986 the program was expanded to include facilities for generating electricity from wind. On 13 December 1984, the program was extended for an indefinite period. Industrial Energy Division, Energy Conservation Branch, Energy Policy, Programs and Conservation Sector. Inquiries: Ottawa/Hull (613) 995-9447.

Alternative energy/research, development and demonstration (EMR 44 – EMR 52)

EMR 44
Renewable energy: this program area provides general and technical information on renewable energy, including biomass, solar and wind power. Activities include financial support for research, development and demonstration projects, and the transfer of project results and information to the public, commercial, industrial and institutional sectors. The programs aim to encourage the development of cost-effective renewable energy technologies and their associated industries, through integrated research, development and demonstration programs spanning product development, project demonstration and information transfer. A key element in this strategy is co-operation with the private sector and provincial and territorial governments. Renewable Energy Branch, Energy Policy, Programs and Conservation Sector. Inquiries: any Conservation and Renewable Energy Office *see* Part II *under* the cities listed above or *see* the Toll-free Telephone Service section, page 17; in Ottawa/Hull (613) 995-9447.

EMR 45
Solar Domestic Hot Water Demonstration: this program will support the installation of solar water heaters in homes and small businesses throughout Canada. EMR contributes a portion of the installed price of the system. The program seeks to demonstrate cost and performance improvements in systems, provide a market for systems, provide installation and operational experience, and generate public interest. A selected number of systems will be monitored for performance and operational data once the installations are completed. The program will expire in 1988. Solar Energy Division, Renewable Energy Branch, Energy Policy, Programs and Conservation Sector. Inquiries: any Conservation and Renewable Energy Office *see* Part II *under* the cities listed above or *see* the Toll-free Telephone Service section, page 17.

EMR 46
Commercial, Industrial Solar Demonstration: this program, which runs to March 1988, aims to demonstrate cost and performance improvements in commercial solar energy systems, provide a commercial market for systems, provide installation and marketing experience, and generate interest in the commercial and industrial sectors. It will contribute funds towards individual demonstration projects based on the cost and performance of the system. For commercial and institutional applications, the maximum contribution level is the lesser of 50 per cent of the total project cost or $70 per annual gigajoule of deliverable energy. For industrial process heat applications, the maximum contribution is $40 per gigajoule. For commercial and institutional swimming pools, the maximum contribution is the lesser of 50 per cent of the total project cost or $35 per gigajoule. Over the life of the program these maximum levels will gradually be reduced. Monitoring of system performance and operation is an important component of the program. Solar Energy Division, Renewable Energy Branch, Energy Policy, Programs and Conservation Sector. Inquiries: any Conservation and Renewable Energy Office *see* Part II *under* the cities listed above or *see* the Toll-free Telephone Service section, page 17.

EMR 47
The Solar Energy Development Program – Research and Development Program supports research and development in solar energy technologies (active solar, passive solar, photovoltaics, small and low head hydro and wind energy) capable of providing a growing contribution to Canada's energy supply. The program carries out generic research and development with industry through cost-sharing agreements. It accepts proposals in response to periodic requests for proposals or through the Unsolicited Proposals Program of Supply and Services Canada. Proposed projects should be in accordance with the program's scientific needs and should demonstrate potential results. Funding is available until 31 March 1990 under this program. Solar Energy Division, Renewable Energy Branch, Energy Policy, Programs and Conservation Sector. Inquiries: any Conservation and Renewable Energy Office *see* Part II *under* the cities listed above or *see* the Toll-free Telephone Service section, page 17.

EMR 48
Solar Energy Development Program – Special Projects Demonstration: this program, scheduled to expire in 1988, provides funding for innovative projects that can demonstrate the capacity to improve the cost and performance of solar energy, wind, photovoltaic and small hydro systems. The program is meant to be a link between research and development activities and product commercialization. One example is the demonstration of a solar-assisted heat pump in a residential application. Monitoring of projects is an essential component of the program. Solar Energy Division, Renewable Energy Branch, Energy Policy, Programs and Conservation Sector. Inquiries: any Conservation and Renewable Energy Office *see* Part II *under* the cities listed above or *see* the Toll-free Telephone Service section, page 17, or Ottawa/Hull (613) 995-9447.

EMR 49
Bioenergy Development Program: this federally funded program promotes the research, development and demonstration of bioenergy conversion technologies, including biomass and peat combustion, materials handling and densification, thermochemical conversion (gasification and liquefaction) and biochemical conversion (alcohol production and anaerobic digestion). The program is conducted almost entirely by contracting out research and development and by making contributions towards demonstration projects to Canadian industry and other organizations, including municipalities. Private-sector cost sharing of research and development is greatly encouraged and technology transfer is typically arranged through information dissemination and the licensing of intellectual property. Biomass research projects are selected for funding from proposals received in response to an annual request for proposals. Bioenergy Division, Renewable Energy Branch, Energy Policy, Programs and Conservation Sector. Inquiries: Ottawa/Hull (613) 995-9447.

EMR 50
Alternate Energy Development Program for PEI: as part of the Economic and Regional Development Agreement for PEI, this federal-provincial initiative encourages the use of biomass as an energy source for commercial, industrial or institutional users. It funds feasibility studies, under the Biomass Energy Consulting Advice Program; incentives for use of biomass energy systems, under the Biomass Conversion Program; and the development of products for residential wood-chip burners. Provincial efforts focus on developing a biofuel supply infrastructure. Inquiries: the Conservation and Renewable Energy Office in Charlottetown *see* Part II or *see* the Toll-free Telephone Service section, page 17; or contact the Department of Energy and Forestry for the Province of Prince Edward Island.

EMR 51
Energy conservation technology/research and development: investigation into energy conservation is conducted in the areas of conventional fuel combustion processes, new combustion processes, energy recovery and energy storage. Energy Research Laboratories, CANMET, Research and Technology Sector. Inquiries: Ottawa/Hull (613) 996-4570, ext 140.

EMR 52
Energy science and technology data bases: the Energy Projects computerized data base (ENG) provides information to the public on significant energy research and development projects, demonstration projects and some development projects currently under way in Canada. The Energy Programs data base (ENP) gives descriptions of federal and provincial programs, and the names of people to contact for further information. Inquiries: QL Systems Limited, Ottawa/Hull (613) 238-3499.

Transportation/alternative fuels (EMR 53 – EMR 57)

EMR 53
Alternative fuels research and development: the federal government allocates funding each year for research and development in the area of new liquid fuels. Supplemental research funds from Canadian industries and provincial governments are also expected. Federal funding for 1986-87 is $18 million; for 1987-88, $17 million; and for 1988-89, $17 million. Transportation Energy Division, Energy Commodities Sector. Inquiries: Ottawa/Hull (613) 995-9447.

EMR 54
Motor Vehicle Fuel Consumption Program: a voluntary program of standards has been operating since 1977. Legislation passed in 1982 to mandate the standards remains unproclaimed, given the successful operation of the voluntary program. Future standards and related public information programs are now under consideration. Information on the fuel efficiency of vehicles is available to consumers. Transportation Energy Division, Energy Commodities Sector. Inquiries: Ottawa/Hull (613) 995-9447.

EMR 55
Natural Gas Vehicle Program: taxable federal contributions of $500 are offered until 31 March 1987 to individuals and fleet operators for each vehicle converted to or purchased new with a natural gas system. Transportation Energy Division, Energy Commodities Sector. Inquiries: Ottawa/Hull (613) 995-5415.

EMR 56
Regional Transportation Energy Program: the purpose of this program is to provide municipal and regional transportation planners with technical information on transportation energy systems, studies and measures that have been carried out or experienced by other Canadian municipalities. Transportation Energy Division, Energy Commodities Sector. Inquiries: Ottawa/Hull (613) 995-9447.

Truck Outreach Program (Pro-Trucker): this program provides technical information transfer for companies involved in trucking. A one-year pilot project called Pro-Trucker was conducted in Manitoba until September 1986. The program is currently being developed in Québec and the Maritime provinces. Transportation Energy Division, Energy Commodities Sector. Inquiries: Ottawa/Hull (613) 995-9447.

Earth sciences (EMR 58 – EMR 90)

Maps/charts/aerial photographs (EMR 58 – EMR 69)

EMR 58
Atlas/*Canada Gazetteer Atlas*: this atlas contains maps and an index of the populated places of Canada, and maps of major cultural and physical features. Geographical Services Division, Surveys and Mapping Branch, Earth Sciences Sector. Inquiries: Ottawa/Hull (613) 990-7410.

EMR 59
Atlas/*National Atlas of Canada*: maps on the historical, human, economic and physical geography of Canada are produced by the Geographical Services Division, Surveys and Mapping Branch, Earth Sciences Sector, and are available from the Canada Map office. Inquiries: Ottawa/Hull (613) 990-7410; Canada Map Office (613) 998-3865.

EMR 60
Geographical maps: information on geographical maps and on the *National Atlas of Canada*, the *Canada Gazetteer Atlas*, the *International Map of the World*, and general-purpose base maps of Canada and its regions is available from the Geographical Services Division, Surveys and Mapping Branch, Earth Sciences Sector. Inquiries: Ottawa/Hull (613) 990-7410.

EMR 61
Constituency maps/electoral boundaries: maps showing provincial and territorial population distributions after a census, and optional boundaries for electoral districts, are prepared by the Surveys and Mapping Branch, Earth Sciences Sector. Inquiries: Ottawa/Hull, general inquiries (613) 993-5745; to order maps, call the Canada Map Office (613) 998-3865.

EMR 62
Maps/reproduction and distribution: reproduction material for topographical and geographical maps may be purchased. Reproduction and Distribution Division, Surveys and Mapping Branch, Earth Sciences Sector. Inquiries: Ottawa/Hull (613) 995-4646.

EMR 63
Maps/authorization to use: authorization to reproduce topographical and geographical maps is given by the Copyright Co-ordinator, Surveys and Mapping Branch, Earth Sciences Sector. Inquiries: Ottawa/Hull (613) 995-4762.

EMR 64
Maps/mail orders: written orders and inquiries concerning topographical, geographical and general-purpose maps of Canada, as well as aeronautical charts and publications may be addressed to the Canada Map Office, 615 Booth Street, Ottawa, Ontario K1A 0E9. Prepayment is required unless an active account has been established. Inquiries: Ottawa/Hull (613) 998-3865.

EMR 65
Maps/over-the-counter sales: EMR maps, aeronautical charts and publications are sold on an over-the-counter, cash-and-carry basis by Canada Map Office agents in major population centres, by EMR offices in each provincial capital and at various federal government offices across Canada. Inquiries: Ottawa/Hull (613) 995-4510; Whitehorse (403) 668-5151; Yellowknife (403) 920-8299; Vancouver (604) 666-6840; Calgary (403) 284-2993; Québec (418) 648-3325; any regional Surveys and Mapping Branch office *see* Part II *under* the cities listed above.

EMR 66
Geological maps and reports/sales: geological maps and reports are sold. Inquiries: Ottawa/Hull (613) 995-4342.

EMR 67
Aeronautical charts and publications: these are available by mail order from the Canada Map Office and from authorized aeronautical chart dealers across Canada. Inquiries: Ottawa/Hull (613) 998-3865.

EMR 68
Air distances: direct air distances expressed in kilometres, statute miles and nautical miles between two geographical positions, are used by various agencies to determine measures such as tariffs on transporting goods by air. Geographical Services Division, Surveys and Mapping Branch, Earth Sciences Sector. Inquiries: Ottawa/Hull (613) 995-4150.

EMR 69
Aerial photography: the National Air Photo Library processes, reproduces and sells aerial photographs; colour microfiche flight indexes; Landsat 35-mm, colour slide collections; Landsat monochrome and colour mosaics; 16-mm microfilm cartridges of monochrome photo imagery; and air photo coverage catalogues. Two locations take orders for reproductions: Ottawa/Hull (613) 995-4560 and Calgary (403) 284-0110. Surveys and mapping (EMR 70 – EMR 80)

EMR 70
Boundaries/provincial and territorial/surveys: provincial and territorial boundaries set by federal-provincial boundary commissions are surveyed by the Legal Surveys Division, Surveys and Mapping Branch, Earth Sciences Sector. Inquiries: Ottawa/Hull (613) 995-4570.

EMR 71
Boundary/Canada–United States/surveys: the International Boundary Commission, in conjunction with External Affairs Canada and in co-operation with the United States, is responsible for the maintenance, inspection, and resurveying of the Canada–United States boundary, and for enforcing the regulations controlling construction adjacent to the boundary. International Boundary Commission, Earth Sciences Sector. Inquiries: Ottawa/Hull (613) 995-4960.

EMR 72
Geodetic surveys: the Geodetic Survey provides national geodetic control survey data; advisory services on geodesy and technological advances; field survey methods, and instrumentation, computations and adjustments. Geodetic Survey, Surveys and Mapping Branch, Earth Sciences Sector. Inquiries: Ottawa/Hull (613) 995-4421.

EMR 73
Mapping/control survey markers: the Geodetic Survey establishes and maintains an integrated national network of control survey markers to provide precise geographical location points for use in mapping the Canadian landmass. Geodetic Survey Division, Surveys and Mapping Branch, Earth Sciences Sector. Inquiries: Ottawa/Hull (613) 995-4421.

EMR 74
Topographic mapping: the Topographical Survey Division is responsible for topographic mapping, at scales of 1:50 000 and 1:250 000, that portrays the Canadian landmass in detail, showing relief elevations and features, such as lakes, rivers, roads, buildings and boundaries. Topographical Survey Division, Surveys and Mapping Branch, Earth Sciences Sector. Inquiries: Ottawa/Hull (613) 995-4581.

EMR 75
Land subdivision system/federal: the Legal Surveys Division is responsible for the procedures used to subdivide and designate Canada Lands for right-granting purposes. Rock and mineral sets: representative collections of Canadian rocks and minerals are for sale to the general public. Geological Survey of Canada, Earth Sciences Sector. Inquiries: Ottawa/Hull (613) 995-4342.

Research and information (EMR 85 – EMR 90)

EMR 85
Geophysical research and information: the Geophysics Division, Geological Survey of Canada, operates seismological, geomagnetic and geodynamic observatories; produces geomagnetic charts, regional gravity maps and geomagnetic forecasts; studies earthquakes, seismic risk, geothermal energy, permafrost, magnetic storms, compass variation, earth structure and dynamics, the physical properties of rocks, the interior of the earth, and both onshore and offshore natural and induced geophysical hazards. Accounts of personal experiences of earthquakes may be sent to Earthquake Reports, Geophysics Division, Geological Survey of Canada, 1 Observatory Crescent, Ottawa, Ontario K1A 0Y3. Inquiries: for geomagnetic forecasts, Ottawa/Hull (613) 992-1299; general inquiries, Ottawa/Hull (613) 995-5558 or Victoria (604) 656-8269.

EMR 86
Arctic research: the Polar Continental Shelf Project co-ordinates and provides logistical support and advice (aircraft, accommodation, radio network) for government, university and other scientific parties; conducts research and provides information on the arctic environment; liaises with Inuit councils on scientific activity in their areas; and establishes research stations on ice floes and ice islands. Polar Continental Shelf Project, Earth Sciences Sector. Inquiries: Ottawa/Hull (613) 990-6987.

EMR 87
Geosciences/exploration and development information: the National GEOSCAN Centre co-ordinates the identification and indexing of publicly available Canadian geoscience documents for input into the GEOSCAN bibliographic data base. The 87 000 records in GEOSCAN represent the co-operative efforts of 12 federal and provincial geoscience agencies. Public documents of the Geological Survey of Canada are included. National GEOSCAN Centre, Geological Survey of Canada, Earth Sciences Sector. Inquiries: Ottawa/Hull (613) 992-9550; search requests (613) 995-4142.

EMR 92
Remote sensing research, technology and applications information: the RESORS office collects and indexes international remote sensing literature for input into the Remote Sensing On-line Retrieval System. The 50 000 records in the RESORS data base are publicly accessible from any computer terminal via the Canadian DATAPAC network. Inquiries: Canada Centre for Remote Sensing, Ottawa, Ontario K1A 0Y7, (613) 990-5870.

EMR 93
Research Agreements Program: grants are awarded to universities, museums and established Canadian research organizations that operate at arm's length from the federal government for proposals in engineering and the natural, physical and social sciences. The program seeks to enhance the exchange of knowledge with the Canadian research community and makes funds available for proposals that support departmental programs and that may produce original ideas and creative approaches to current problems. Funds granted under the program are awarded on the basis of departmental priorities in areas where research is most urgently needed. Inquiries: Ottawa/Hull (613) 992-6304.

EMR 94
Research and development/energy: the Office of Energy Research and Development is responsible for policy, strategy and co-ordination for an interdepartmental program covering research and development in conservation, new liquid fuels, renewable energy, nuclear fusion, coal, heavy oils, oil and gas, and electricity. Resources for research and development projects, under the interdepartmental program, are allotted by EMR on the recommendation of the Interdepartmental Panel on Energy R&D to participating federal research organizations. They, in turn, contract out much of the work to Canadian private sector research and development performers through cost-shared programs with the private sector, such as the Industry Energy Research and Development Program, and through grants, contributions and contracts. Office of Energy Research and Development, Research and Technology Sector. Inquiries: Ottawa/Hull (613) 995-9351.

EMR 95
Research and development/energy transportation: research is conducted into methods and materials for energy transportation, including coal slurries, liquid natural gas and pipeline materials. Physical Metallurgy Research Laboratories, CANMET, Research and Technology Sector. Inquiries: Ottawa/Hull (613) 993-4929.

EMR 96
Research and development services/minerals and energy: the Canada Centre for Mineral and Energy Technology (CANMET) conducts, sponsors and contracts out work for applied research and development on mineral, metal and fossil fuel technology, reflecting national and regional needs and complementing research by the private sector. The technical knowledge base is disseminated by research staff and information specialists. Laboratory facilities are also utilized in carrying out research projects for industry on a full or partial cost-recovery basis. Some of the continuing studies include those relating to coal and mineral resource assessment, mining technology, and the health and safety of miners; fuel combustion and energy conservation technology; health, safety and pollution control in the mineral industries; improved recovery from oil sands and heavy oil; explosives testing; improved quality of mineral-based materials; nuclear and mineral waste disposal; development of standards and specifications for improved recovery from low-grade ores; and chemical analysis. Technology Information Division, CANMET, Research and Technology Sector. Inquiries: Ottawa/Hull (613) 995-4029.

Minerals and explosives (EMR 97 – EMR 112)

EMR 97
Minerals/commodity-specific information, consultative service: information on mineral commodities based on domestic and foreign sources (producers, suppliers, markets, quotas and prices) is provided. Non-confidential files may be viewed on the premises. Mineral and Metal Commodities Branch, Mineral Policy Sector. Inquiries: Ottawa/Hull (613) 995-9466; industrial minerals, ext 216; non-ferrous, ext 249; ferrous, ext 205.

EMR 98
Mineral inventory/consultative service: the National Mineral Inventory Division maintains records of known mineral deposits and occurrences (excluding petroleum and natural gas) throughout Canada. Some 19 000 records have been completed to date. Each record contains narrative-form summaries on the mineral's history of exploration and development, its history of production, if any, and a geological description of the deposit; details on location, map references and bibliography are included. The Division also maintains current Canadian resource (reserve/production) data by deposit, and occasionally publishes compilations of mineral occurrences and resources. Records are available to the public on a fixed fee-per-unit basis and on a cost-recovery basis for computer files. Resource Supply and Information Branch, National Mineral Inventory, Mineral Policy Sector. Inquiries: Ottawa/Hull (613) 995-9466, ext 244.

EMR 99
MINSYS: the National Mineral Inventory Division maintains MINSYS, a computerized and manual index to the Canadian mineral occurrence records. Mineral Policy Sector. Inquiries: Ottawa/Hull (613) 995-9466, ext 244.

Energy, Mines and Resources Canada *(continued)*
Minerals and explosives *(continued)*

EMR 100
Ocean Mining Citation Retrieval System (OMCRS): the OMCRS is a bibliographic data base containing information on the geological, oceanographic, environmental, economic and legal aspects of ocean resource development and management. Access to the OMCRS is available in the form of computer searches. Ocean Mining Division, Mineral Policy Sector. Inquiries and search requests: Ottawa/Hull (613) 995-9466.

EMR 101
Mineral Outlook Conference: this annual event, usually held in May, provides an open forum to consider the economic issues facing the mineral industry and to increase public awareness and understanding of these issues. Mineral Policy Sector. Inquiries: Ottawa/Hull (613) 995-9466.

EMR 102
Mineral statistics: a consultative service is offered on mineral statistical problems and on data collection, availability and interpretation. Statistics are compiled on mineral exploration expenditures, value of production, inventories, shipments, production of refined minerals and metal, minerals and metal prices, operating costs, trade by country, consumption by end use, employment and wages. Information Systems Division, Mineral Policy Sector. Inquiries: Ottawa/Hull (613) 995-9466, ext 355.

EMR 103
Mineral publications: the Mineral Policy Sector produces scientific and technical publications, such as mineral bulletins and reports and other reports on the mineral industry in Canada. It also publishes a reference document, the *Canadian Minerals Yearbook*, which is a comprehensive review of some 55 mineral commodities. These publications can be purchased from the Canadian Government Publishing Centre, Supply and Services Canada, Ottawa Ontario K1A 0S9. Inquiries: Ottawa/Hull (819) 997-2560. Other materials, such as mineral fact sheets, posters, pamphlets and a Mineral Policy Sector publications catalogue are available to the public through EMR regional information offices. Inquiries: Ottawa/Hull (613) 995-3065 or any regional information office *see* Part II *under* the cities listed above.

EMR 104
Mineral supply/resources and reserves/consultative service: information is provided on resource concepts, classification and terminology, reserves and additional resources, the magnitude and effectiveness of mineral exploration in Canada, long-range mine supply capability and ocean mining. Resource Policy Division, Mineral Policy Sector. Inquiries: Ottawa/Hull (613) 995-9466, ext 344.

EMR 105
Federal-Provincial Mineral Development Agreements: under these agreements the provinces and the federal government combine their resources and expertise to carry out a variety of programs designed to encourage mineral exploration and development. All the agreements carry out a range of geoscientific studies for the generation of data to stimulate exploration. They may also include investigations of improvements in mining and processing technology; studies, such as market assessments, for the identification of development opportunities; direct assistance to industry to assess opportunities and stimulate investment; and public information activities. In some of the agreements, projects relate to specific mining operations or community-centred areas that can be of benefit to the local economy. Overall administration of the agreements is the responsibility of the Regional and Intergovernmental Affairs Division, Mineral Policy Sector. Inquiries: Ottawa/Hull (613) 995-9466.

EMR 106
Mineral trade/consultative service: an information service is offered on foreign interests competing with Canadian mineral producers, foreign investment opportunities for Canadian firms, and foreign policies on mineral trade. International Mineral Relations Division, Mineral Policy Sector. Inquiries: Ottawa/Hull (613) 995-9466, ext 216 or 253.

EMR 107
Mineral resources/conservation: current information is available on conservation measures applicable to the mineral industry and on recommended actions that government, industry and the public can take to conserve mineral resources. Mineral Sciences Laboratories, CANMET, Research and Technology Sector. Inquiries: Ottawa/Hull (613) 995-4088.

EMR 108
Mineral processing technology: CANMET develops and promotes technology to increase the recovery value of known Canadian mineral deposits. CANMET has developed a computerized data base (MINPROC), which provides references to technical publications and reports on mineral processing technology pertinent to the needs of Canadian industry. Technology Information Division, CANMET, Research and Technology Sector. Inquiries: Ottawa/Hull CANMET (613) 995-4064, or QL Systems Limited (613) 238-3499.

EMR 109
Mining technology: CANMET develops and promotes technology to enhance the efficiency, viability and international competitiveness of the Canadian mining industry. CANMET has developed a computerized data base (MINTEC), which provides references to technical reports and other publications on mining technology pertinent to the needs of Canadian industry. Technology Information Division, CANMET, Research and Technology Sector. Inquiries: Ottawa/Hull (613) 996-4570, ext 150.

Energy, Mines and Resources Canada *(continued)*
Minerals and explosives *(continued)*

EMR 110
Mining corporations: EMR offers a reference and information service on corporations having interests in mining, exploration, development and the production of minerals. Resource Supply and Information Branch, National Mineral Inventory, Mineral Policy Sector. Inquiries: Ottawa/Hull (613) 995-9466, ext 244.

EMR 111
Mining industry/health and safety conditions: CANMET is responsible for improvement of the safety, health and environmental conditions of the mining and extraction industries. Mining Research Laboratories, CANMET, Research and Technology Sector. Inquiries: Ottawa/Hull (613) 996-4570, ext 150.

EMR 112
Explosives Act/administration: the Explosives Branch administers and enforces the Explosives Act in the interest of public safety and security. Through a system of tests, licenses and permits supported by inspections, the Branch controls the authorization, manufacture, importation, sale, purchase, possession and storage of explosives. The Branch also jointly controls road transport with Transport Canada. The term *explosives* includes blasting explosives, detonators, propellants, sporting and industrial ammunition, and all types of fireworks and pyrotechnic devices. Explosives Branch, Research and Technology Sector. Inquiries: Ottawa/Hull (613) 993-7211 or any regional Explosives Branch office *see* Part II.

Environment Canada (EC)

Head Office
Les Terrasses de la Chaudière
27th Floor
10 Wellington Street
Hull, Québec
(Mail: Ottawa, Ontario K1A 0H3)

Regional Offices: *see* individual branches below.

Other offices (including weather offices and national parks): throughout Canada.

Information: Ottawa/Hull (819) 997-2800; regional offices *see* Part II *under* cities listed under specific branches below; other offices *see* Part II *under* nearest town; for the Historic Sites and Monuments Board of Canada *see* EC 40 below; for aviation weather information in Ontario, the Federal Environmental Assessment Review Office in Newfoundland, and the public relations and information service in Ontario and Québec *see* the Toll-free Telephone Service section, page 17.

Responsibilities of the Department include the management and protection of migratory birds; the provision of information on weather, climate, ice and sea conditions, and air quality; the protection and enhancement of the quality of the natural environment, including water, soil and air; and the conservation of renewable water, land and wildlife resources.
Minister responsible:
Minister of the Environment

Atmospheric Environment Service (EC 1 – EC 11)

Headquarters
4905 Dufferin Street
Downsview, Ontario
M3H 5T4

Regional Offices: Vancouver, Edmonton, Winnipeg, Toronto, Montréal (Saint-Laurent), Bedford.

Information: Toronto (Downsview) (416) 667-4551; regional offices *see* Part II *under* cities listed above.

EC 1
Public and marine weather services: weather warnings, forecasts and information are available to all Canadians around the clock for periods of up to five days. These services deal with a range of weather conditions, from tropical hurricanes to Arctic blizzards. Forecasts are prepared for major cities and 172 public forecast districts. Warnings are issued for dangerous weather conditions. Marine weather services, consisting of marine weather warnings, forecasts and information are provided to fishermen and shipping and recreational boaters in 95 different marine areas, including coastal and inland waters and the Arctic. Canada's public and marine forecasts cover a geographical area second in size only to the USSR. Inquiries: Toronto (Downsview) (416) 667-4710 (public), (416) 667-4697 (marine).

Environment Canada *(continued)*
Atmospheric Environment Service *(continued)*

EC 2
Aviation weather services: weather warnings, forecasts and observations are provided to 170 airports and 113 aviation areas for air safety and economy of aviation operations, and for the safety of Canadian travellers. Through ICAO international agreements, air weather services also cover an area out to 30°W over the north Atlantic. These services are integrated with those of Transport Canada's Air Transportation Administration (CATA). Inquiries: Toronto (Downsview) (416) 667-4721.

EC 3
Economic weather services: weather information and advice are provided for the safety and efficiency of agriculture, fishing and forestry operations, and other weather-sensitive economic sectors, and, where applicable, to minimize the possibility of an industrial disaster that could harm the environment. Inquiries: Toronto (Downsview) (416) 667-4732.

EC 4
Military weather services: the Atmospheric Environment Service provides support to the Department of National Defence to meet all the meteorological and oceanographic requirements of the Canadian Armed Forces. It provides services for ground, sea, air and antisubmarine operations over a geographic area including all Canada, the Arctic, and the adjacent oceans, extending to the mid-Pacific and over the Atlantic almost to Europe. Activities consist of forecast production and delivery, including weather warnings, meteorological and oceanographic support to military operations, support to search and rescue, and advice and consultation. The Atmospheric Environment Service supplies the professional forecast staff and management. Technical support is supplied by DND. The Canadian Forces Weather Service is integrated with AES' civilian weather service. Inquiries: Ottawa/Hull (613) 995-4173.

EC 5
Climate applications: the Canadian Climate Centre is responsible for analysis and interpretation of climatic data; for assessment of the impact of climate on national concerns such as agricultural production, industrial design, arctic development and transportation, wind and solar energy, recreation and tourism; and for the provision of information and consultation services to those concerned with policy, planning and design, forest management and human health. Inquiries: Toronto (Downsview) (416) 667-4624.

EC 6
Climate services: the Canadian Climate Centre makes available climatological data (in the form of publications, statistical abstracts, microfilm, digital data or custom computer analysis) to the general public and to specialized users, such as engineers, lawyers and architects. Inquiries: Toronto (Downsview), computer products (416) 667-4953; publications (416) 667-4613.

EC 7
Climate research: the Canadian Climate Centre provides atmospheric circulation statistics and diagnoses, and carries out research on climate modelling, carbon dioxide impacts, climate sensitivity, climatic trends, climatic variability, climate monitoring, general circulation modelling, energy budget studies, radiative-photochemical models, thermodynamic models and statistical long-range prediction. Canadian Climate Centre. Inquiries: Toronto (Downsview) (416) 667-4651.

EC 8
Hydrometeorological and marine applications of climate information: the Canadian Climate Centre provides products and analyses that are specially tailored to aid in the design and operation of water supply, flood control, and other hydrological structures and systems. Rainfall, snowfall, snowmelt and evaporation are among the subjects receiving special attention. Advice, consultation and specialized analyses of a climatological nature concerning the winds and weather over, and sea-state of (as indicated by wave heights, water temperature and so on) Canadian lakes and ocean areas are provided to the general public and to the transportation, fishing, hydrocarbon and marine or coastal engineering industries. Canadian Climate Centre. Inquiries: Toronto (Downsview) (416) 667-4617.

EC 9
Ice conditions: the Ice Centre in Ottawa provides daily analyses of ice conditions in Canada's navigable coastal and contiguous waters and in the Great Lakes – St Lawrence River System, based on aerial reconnaissance flights, imagery from earth-orbiting satellites, commercial and government ships and other sources. The Ice Centre prepares and distributes composite charts of ice conditions by mail and by radio facsimile to support marine transportation, fishing activities, offshore resource exploration and so on. It also prepares seasonal outlooks and operational forecasts for short-term and for 30-day periods which are broadcast over marine radio stations and are also accessible by dial-in telex. The Ice Centre also provides telephone information and consultation. Ice Forecasting Centre. Inquiries: Ottawa/Hull (613) 996-5236.

EC 10
Archived ice data: the Ice Climatology and Applications Division makes available for inspection and analysis ice charts, satellite imagery, ice thickness measurements, and records of remotely sensed data from SLAR, laser profilometer and cameras. The Division also prepares ice studies and statistical analyses, generates ice atlases, and provides advice and consultation. Considerable international ice data is also available. Inquiries: Ottawa/Hull (613) 995-6730.

Environment Canada *(continued)*
Atmospheric Environment Service *(continued)*

EC 11
Meteorological and atmospheric research: the Atmospheric Environment Service carries out atmospheric and meteorological research. Its work includes research on LRTAP (Long-Range Transport of Air Pollutants), acid rain, weather, ice, the effect of wind on waves, forecasting systems, the ozone layer, atmospheric radiation, numerical weather prediction (NWP), the physics of clouds and precipitation, weather radar, weather and environmental satellite data reception and processing, atmospheric chemistry, air quality, atmospheric contaminants, man-made pollutants, wind and solar energy, the environmental (atmospheric-related) aspects of northern and offshore hydrocarbon development, agro/forest/aeronautical meteorology, meso-scale/boundary-layer meteorology, and atmospheric dispersion. Inquiries: Toronto (Downsview) (416) 667-4883.

Environmental Conservation Service (EC 12 – EC 23)

Canadian Wildlife Service (EC 12 – EC 15)

Place Vincent Massey
17th Floor
351 Saint-Joseph Boulevard
Hull, Québec
(Mail: Ottawa, Ontario K1A 0E7)

Regional Offices: Delta, Edmonton, Ottawa, Québec (Sainte-Foy), Sackville.

Information: Ottawa/Hull (819) 997-1095 or any regional office *see* Part II *under* cities listed above.

EC 12
Endangered species: the Canadian Wildlife Service carries out research and provides management advice on rare and endangered animal species and their habitats. Inquiries: Ottawa/Hull (819) 997-1095. The Service also issues permits for the import and export of endangered plant and animal species. Inquiries: Ottawa/Hull (819) 997-1840.

EC 13
Habitat management/ecological assessment: the Canadian Wildlife Service manages habitats to ensure the preservation of wildlife in Canada. It also conducts research and conservation programs and provides research results and advice on the ecology of migratory birds. Inquiries: Ottawa/Hull (819) 997-1095 or any regional Canadian Wildlife Service office *see* Part II *under* cities listed above.

EC 14
Hunting regulations for migratory game birds: the Canadian Wildlife Service sets regulations governing the hunting, handling and use of migratory game birds. Inquiries: any regional Canadian Wildlife Service office *see* Part II *under* cities listed above.

EC 15
Migratory birds/conservation: the Canadian Wildlife Service is responsible for the protection and management of migratory birds. It carries out research and surveys on the distribution, status, population dynamics and ecological requirements of migratory birds. Inquiries: Ottawa/Hull (819) 997-2957.

Inland Waters Directorate (EC 16 – EC 19)

Place Vincent Massey
351 Saint-Joseph Boulevard
Hull, Québec
(Mail: Ottawa, Ontario K1A 0E7)

Regional Offices: Vancouver, Regina, Burlington, Québec (Sainte-Foy), Dartmouth.

Information: Ottawa/Hull (819) 997-6555 or 997-2800, or any regional office *see* Part II *under* cities listed above.

EC 16
Water management/flood damage reduction: to reduce the potential of federal disaster payments for flood damage, the Inland Waters Directorate has negotiated agreements with the provinces and territories, under which communities are mapped to identify flood risk areas. In addition, the federal government, in co-operation with the provinces, protects existing developments from flooding through the construction of dikes and dams in areas where the benefits of such flood protection exceed the cost and where there is a major national concern.

EC 17
Water management data: the Inland Waters Directorate plans and conducts water management programs, makes hydrological resource assessments, and carries out the systematic collection, compilation, analysis, and distribution of data on water levels, streamflow, sediment, water quality, groundwater, snow and ice, glaciers, and water use for the management of inland waters. These data are used by federal and provincial agencies for flood forecasting and infrastructure design, by industry for power production and navigation, and by agriculture for irrigation.

EC 18
Water management/research: the Inland Waters Directorate undertakes freshwater research and technology development to provide information on and foster understanding of water management decisions concerning hydrology, surface waters, ground waters, snow and ice, aquatic ecosystems, acid rain and the occurrence and pathways of toxic chemicals. The Directorate also provides funding to non-federal agencies for water-related research through contracts and grants.

Environment Canada *(continued)*
Inland Waters Directorate *(continued)*

EC 19
Management of international and interjurisdictional waters: in co-operation with the provinces, the Inland Waters Directorate plans and implements measures for the conservation, development and utilization of water resources in river basins of national interest. Management responsibilities range from direct management of specific basins to the provision of staff, experts and technical support to over 30 control boards and reference study groups under the authority of the International Joint Commission and more than 10 federal-provincial agreements.

Lands Directorate (EC 20 – EC 23)

Place Vincent Massey, 20th Floor
351 Saint-Joseph Boulevard
Hull, Québec
(Mail: Ottawa, Ontario K1A 0E7)

Regional Offices: Vancouver, Regina, Burlington, Québec (Sainte-Foy), Dartmouth.

Information: Ottawa/Hull (819) 997-2010, or any regional office *see* Part II *under* cities listed above.

EC 20
Land use and management: the Lands Directorate, which has integrated with the Inland Waters Directorate (while retaining separate offices), is responsible for the Federal Policy on Land Use and for promoting the wise use and management of Canada's land resources. It monitors and analyses land quality and use, assesses the impact of federal programs on land use and provides advice on the use and management of federal lands. The Canada Land Data System Division maintains a national, multi-disciplinary land data base for policy, program and research purposes.

EC 21
Land use research and planning: the Lands Directorate conducts research into major national and regional land problems to inform the public and decision-makers of their causes, solutions and importance to the nation. It undertakes programs to analyse the loss of agricultural land, the preservation of special resource lands, and federal involvement in the solution of land-use problems. Examples of current initiatives are the analysis of degradation and stress on the land resource, analysis of planning measures and their effectiveness across Canada, analysis of the sustainable development of marginal lands, the rehabilitation of mining sites, and evaluation of the impact of federal programs on the nation's land resource. This program also provides land planning assistance to the Environmental Assessment and Review Process (EARP) and to other Federal departments in resolving their land problems.

EC 22
Publications and maps: the Lands Directorate produces and distributes public information materials, such as the *Canada Land Inventory*, the *LAND* newsletter, brochures, books, reports and maps that relate to the land and its use from a national perspective. Most maps are available through provincial and federal map offices. Inquiries: Ottawa/Hull (819) 997-2010.

EC 23
Land inventory monitoring and data systems: the Lands Directorate carries out inventories of land capability, land use, and the ecological characteristics of land, including the Canada Land Inventory (settled Canada), Northern Land Use Information Mapping (North of 60°), Ecological Land Surveys, and the Canada Land Use Monitoring Program (urban regions and prime resource lands). The Canada Committee on Ecological Land Classification co-ordinates federal, provincial and university research and development activities. The Canada Land Data System provides an extensive digital data base for Canada and can be accessed through regional terminals.

Conservation and Protection Service (EC 24 – EC 32)

Environmental Protection Program
Place Vincent Massey
351 Saint-Joseph Boulevard
Hull, Québec
(Mail: Ottawa, Ontario K1A 1C8)

Regional Offices: Vancouver, Edmonton, Toronto, Montréal, Dartmouth.

Information: Ottawa/Hull (819) 997-0310 or 997-2800, or any regional office *see* Part II *under* cities listed above.

EC 24
Acid rain: the Conservation and Protection Service plans, co-ordinates and manages Environment Canada's acid rain program and provides leadership and co-ordination for the overall federal program. Inquiries: Ottawa/Hull (819) 997-3376.

EC 25
Commercial chemicals: the Conservation and Protection Service assesses new chemicals and the use patterns of existing chemicals in order to develop and implement control strategies for commercial chemicals that, upon entry to the environment, might present an unacceptable level of risk to human health or the environment. Inquiries: Ottawa/Hull (819) 997-1499.

EC 26
Toxic chemicals management: the Conservation and Protection Service plans, co-ordinates and manages this departmental program to prevent or control entry of harmful quantities of toxic chemicals into the components of the environment – air, water, land, plant and animal life – and into man. The Service also provides leadership and co-ordination for the overall federal program through the Interdepartmental Committee on Toxic Chemicals. Inquiries: Ottawa/Hull (819) 953-1652.

Environment Canada *(continued)*
Conservation and Protection Service *(continued)*

EC 27
Water pollution control: the Conservation and Protection Service works with the provinces to preserve, restore and enhance the aquatic environment and achieve water quality that is safe for human consumption and suitable for aquatic life. At the Canada Centre for Inland Waters in Burlington, the Service works with Fisheries and Oceans in the areas of pollution, contaminant surveillance, fish and health toxicology. The Service's current focus is the identification, characterization and control of toxic substances in wastewater discharges. Advice on the treatment of wastewater is provided to municipalities. The Service also administers the Ocean Dumping Control Act (by issuing permits to control dumping); controls the phosphorus content of laundry detergents, under the Canada Water Act; approves designs for marine sanitation devices; and develops training programs for treatment plant operators. Inquiries: Ottawa/Hull (819) 997-2375.

EC 28
Environmental emergencies: the Conservation and Protection Service stimulates the development and application of spill preparedness and measures to prevent or lessen the impact of environmental emergencies, such as those associated with oil and toxic chemical spills. It maintains the National Alerting and Reporting Network on a 24-hour basis to respond quickly to emergencies, and it supports the improvement of countermeasures. Inquiries: Ottawa/Hull (819) 997-3742.

EC 29
Technical services: the Conservation and Protecton Service is responsible for promoting the development, demonstration and transfer of new technology for efficient effluent treatment, residue management and response to spills of environmentally hazardous materials. Information and advice concerning this new technology is of particular value for municipalities. Other activities include development and management of a pollution measurement capability for stationary and mobile sources, operation of analytical laboratories, development of technical training packages and provision of technical advice concerning the protection of environmental quality. Inquiries: Ottawa/Hull (819) 994-2103.

EC 30
Development and Demonstration of Resource and Energy Conservation Technology (DRECT): this program will contribute up to 50 per cent of the total cost of energy recovery projects. It also supports feasibility studies and the development and analysis of energy recovery proposals and cost-benefit studies. Any business, province or municipality offering an appropriate proposal may apply. Inquiries: Ottawa/Hull (613) 997-1813.

EC 31
Socio-economic impact analyses: socio-economic impact analyses of new health, safety, and fairness regulations are conducted by the Conservation and Protection Service to improve the allocation of economic resources and the information provided to decision-makers, and to allow for increased public participation in the regulation-making process. Inquiries: Ottawa/Hull (819) 997-2376.

EC 32
Control of threats from human activities: the Conservation and Protection Service is responsible for ensuring that human activities are conducted in a manner that minimizes adverse impacts on the environment. It maintains centres of expertise on the environmental consequences of human activities in the following sectors: mining, mineral and metallurgical processes; renewable resources extraction and processing; urban activities; chemical industries; oil, gas and energy; vehicle emissions and transportation systems; and hazardous waste management. Through inventories, characterization, assessment and socio-economic studies, the Conservation and Protection Service identifies current or potential environmental concerns (air pollution, water pollution, waste generation and disposal, or other environmental disturbances) and develops and promotes preventive or remedial measures on a national, interprovincial and international level. Inquiries: Ottawa/Hull (819) 997-3376.

Parks Canada (EC 33 – EC 37)

Head Office
Les Terrasses de la Chaudière
10 Wellington Street
Hull, Québec
(Mail: Ottawa, Ontario K1A 1G2)

Regional Offices: Calgary, Winnipeg, Cornwall, Québec, Halifax.

Information: Ottawa/Hull (819) 997-2800 or 994-2534, or any regional office *see* Part II *under* cities listed above.

EC 33
Co-operating associations: Parks Canada seeks the co-operation of non-profit organizations in the promotion of its objectives through such ventures as the sale of heritage items and the provision of additional public services, such as courses and field trips. Inquiries: Ottawa/Hull (819) 994-2696.

EC 34
Heritage canals: Parks Canada is responsible for the operation and interpretation of historic canal systems in Canada. Inquiries: any regional Parks Canada office *see* Part II *under* cities listed above, or canal offices *see* Part II *under* Sault Ste Marie, Peterborough, Smiths Falls, Chambly and St Peters.

Environment Canada *(continued)*
Parks Canada *(continued)*

EC 35
Canadian heritage rivers: Parks Canada provides technical, financial and promotional support to members of the federal-provincial-territorial Canadian Heritage Rivers Board to help them identify and plan for conservation and interpretation of heritage rivers, both inside and outside national parks. Parks Canada itself also nominates rivers for study. Inquiries: Ottawa/Hull (819) 994-3011.

EC 36
Historic parks and sites: Parks Canada is responsible for the preservation, restoration and interpretation of sites and structures of national historical importance throughout Canada. Admission is free to all national historic parks except the Fortress of Louisbourg, the Halifax Citadel, Fort George, Lower Fort Garry, Fort Langley and the Fisheries Museum of the Atlantic. Admission is free to Fort Lennox, but there is a charge for the privately owned ferry that takes visitors to the island. Inquiries: Ottawa/Hull (819) 997-2800 or any regional Parks Canada office *see* Part II *under* cities listed above or any national historic park *see* Part II *under* town nearest national historic park.

EC 37
National parks: the development, operation and protection of national parks in Canada are the responsibility of Parks Canada. Information concerning national parks, including fees, regulations on pets, firearms, horseback riding, trail bikes, bicycles, snowmobiles, fires, garbage disposal, mountaineering, backpacking, hiking, camping, fishing and cross-country skiing is provided. Inquiries: Ottawa/Hull (819) 997-2800 or any regional Parks Canada office *see* Part II *under* cities listed above or national parks *see* Part II *under* town nearest national park.

Commemoration of historic parks and sites: under the Historic Sites and Monuments Act of 1953, the Board acts as an advisor on historical matters to the Minister of the Environment, who has the responsibility to implement a program of commemorating historic sites of national significance. In rare cases, if the Board deems a certain structure to be of exceptional significance, it may recommend to the Minister that the Department enter into cost-sharing agreements with municipal and provincial governments as well as private, non-profit organizations, to aid in the building's acquisition or restoration.

Export Development Corporation (EDC)

Head Office
151 O'Connor Street
(PO Box 655)
Ottawa, Ontario
K1P 5T9

Regional Offices: Vancouver, Calgary, Toronto, Montréal, Halifax.

District Offices: Winnipeg, Ottawa, London.

Information: Ottawa/Hull (613) 598-2500; regional or district offices *see* Part II *under* cities listed above.

EDC is a Crown corporation that provides a wide range of insurance and bank guarantee services to Canadian exporters and arranges credit for foreign buyers in order to facilitate and develop export trade.
Minister responsible:
Minister for International Trade

EDC 1
Financing (medium- and long-term): the EDC will lend up to 85 per cent of the contract price of an export of capital goods and services, provided the buyer is creditworthy, his country is an acceptable risk, and the Canadian content of the export is at least 60 per cent. In addition, EDC is now able to extend credit directly to Canadian exporters who purchase Canadian goods for use or lease outside Canada. Financing services include loans to foreign buyers, allocations under lines of credit with banks or financial institutions that re-lend to buyers, and note purchases. The EDC also provides loan guarantees to banks and financial institutions that lend money to foreign buyers to enable them to make such purchases. In all cases, these services provide exporters with what are, in effect, cash sales. Normally, EDC financing services are available only to support sales of capital goods and services sold on credit terms of two years or more. However, under its note purchase program it can support sales of quasi-capital goods intermediate goods and consumer durables.

EDC 2
Guarantees (performance and bid security): the Corporation provides 100 per cent unconditional guarantees to banks that provide performance and bid-related securities in the form of an irrevocable letter of credit issued to a foreign buyer on behalf of a Canadian exporter.

EDC 3
Guarantees (short-term line of credit): EDC provides guarantees to banks that extend incremental lines of credit to foreign banks, which in turn finance imports of Canadian goods sold on short-term credit. Export sales must be insured under an EDC Global Comprehensive Insurance policy to qualify.

EDC 4
Guarantees (supplier and buyer credit): the Corporation issues 100 per cent unconditional guarantees to banks and other lenders who provide non-recourse financing in respect of an EDC-insured sale of capital goods (supplier credit), or who make loans to buyers of Canadian capital goods and services (buyer credit).

EDC 5
Insurance (assignment of exporter's rights and obligations): the Export Development Corporation normally will agree to pay any proceeds payable under an exporter's policy to a bank or other financial organization in order to facilitate the exporter's banking arrangements. Also, if a bank or other financial institution agrees to purchase an insured foreign receivable from the exporter, EDC is prepared to agree to the assignment of the exporter's rights and obligations under the policy to the bank or financial institution.

EDC 6
Insurance (consortium): Export Development Corporation insurance is available to cover individual members of an exporting consortium against a call on a performance security due to the failure of one or more other members of the consortium to perform.

EDC 7
Insurance (equipment): Equipment (Political Risk) Insurance covers political risks or actions by a foreign government that result in the loss of effective control over the use of equipment by an exporter, including expropriation, war or hostilities, inability to re-export and damage.

EDC 8
Insurance (export credit): Export Development Corporation credit insurance is available to cover nonpayment by foreign buyers owing to commercial or political events beyond the control of the seller or buyer (insolvency, default, cancellation of import or export licenses, foreign exchange blockages and so on). In certain instances, cover only for political or commercial risk can be issued. Specialized export credit insurance is available for sales of bulk agricultural products on short- and medium-term credit, and for exports of all types to the United States. The USA Commercial Risk (Small Business) Policy can be obtained by exporters on the spot when an EDC representative calls on them.

EDC 9
Insurance (foreign investment): Export Development Corporation insurance is available to cover Canadian foreign investments against three, broad, political risks – inconvertibility of or the inability to repatriate capital and earnings, expropriation, and war or revolution.

EDC 10
Insurance (performance security): the Export Development Corporation provides cover against a wrongful call by a foreign buyer or a rightful call outside the control of the exporter of an on-demand letter of credit or guarantee issued by the exporter's bank in favour of a foreign buyer.

Export Development Corporation *(continued)*

EDC 11
Insurance (predisbursement): the Export Development Corporation provides protection to Canadian exporters by covering the production period, from the effective date of the commercial contract and loan agreement until disbursement under the loan agreement is made by EDC.

EDC 12
Insurance (subsuppliers): Specific Transaction Subsupplier Insurance (Foreign Risks) protects a subsupplier who has signed a conditional contract with an exporter supported by EDC, if the foreign buyer becomes unable or unwilling to pay the exporter as a result of commercial or political developments and as a consequence, the subsupplier does not receive payment. An endorsement is available to cover the subsupplier if the buyer refuses to pay because the exporter fails to perform.

Specific Transaction Subsupplier Insurance (Domestic Risks) protects a subsupplier who has signed an unconditional contract with an exporter supported by EDC, if the exporter is unwilling or unable to pay the subsupplier and the subsupplier is not at fault.

EDC 13
Insurance (surety bonds): Export Development Corporation insurance is available to cover a portion of the risk assumed by a domestic surety company providing a performance bond to a foreign buyer.

The Federal Business Development Bank is a Crown corporation that assists in the establishment and development of business enterprises in Canada by providing them with financial and management services.
Minister responsible:
Minister of Regional Industrial Expansion

FBDB 1
Financial services: the FBDB extends financial assistance to almost every type of new or existing Canadian business that does not have other sources of financing available to it on reasonable terms and conditions. Loans, loan guarantees, interim financing, equity financing or any combination of these in whatever manner best suits the particular needs of the business, are available. Particular attention is given to smaller organizations. FBDB also provides term loans with interest rates fixed for one to five years, as well as floating-rate loans that can be switched to fixed rates at the borrower's option.

FBDB 2
Investment banking: in co-operation with the private sector, FBDB serves as a catalyst to attract more equity financing from private financial institutions. Although FBDB's financial participation in companies is temporary in nature, it is planned for a period of time sufficient to provide a durable benefit to the company and a return for the Bank that is commensurate with the risk.

FBDB 3
Financial Planning Program: this program offers a series of do-it-yourself financial planning kits, a package service, and an intermediation service to assist small and medium-sized firms in preparing and presenting their business plans.

FBDB 4
CASE (Counselling Assistance to Small Enterprises): FBDB's counselling program, CASE, uses the expertise of retired, successful, business people to assist small firms in improving their methods of doing business. For a nominal fee, experienced counsellors provide advice in all areas of business management, including accounting, marketing, production and personnel. It is not necessary to be a borrower from FBDB to obtain CASE services. Inquiries: CASE offices *see* Part II *under* nearest town or *see* the Toll-free Telephone Service section, page 17.

FBDB 5
Training: to help owners and managers of small Canadian businesses improve their management skills, FBDB conducts management training seminars in towns and cities throughout Canada. These training services include full- and half-day seminars on various business topics, joint seminars organized in co-operation with professional or industrial associations or groups, and owner/manager courses developed by FBDB for the provincial and territorial ministries of education. These courses are offered to the public through the adult education departments of community colleges across Canada. In addition, FBDB also offers management clinics in all of its branches. These clinics are self-teaching, management development tools combining the use of a videotape and workbook. The FBDB also organizes management workshops locally.

FBDB 6
Information: at each FBDB branch, the Small Business Information Service provides up-to-date information for business, including information from Statistics Canada, trade associations, and other public and private sources. The Business Information Centres (BICs), formerly under the Department of Regional Industrial Expansion, have been absorbed into FBDB regional offices across Canada *see* Part II *under* cities listed above. FBDB also publishes a pocketbook series entitled Minding Your Own Business, which covers a variety of business-related topics. It issues a quarterly tabloid entitled *Profit$*, mailed to most businesses in Canada without charge.

FBDB 7
AIM (Automated Information for Management): FBDB maintains this information data base to meet the needs of small and medium-sized businesses. The information includes government-assisted programs for business, information sources, such as services available from Canadian trade associations, and business opportunities, such as new US products with Canadian market potential. Much of the data base, which is updated every two weeks, is region-specific, and can be retrieved according to geographical area, industry and topic of interest. Access to AIM is free of charge through all FBDB branches and regional offices and through a network of other organizations serving small business. Computer searches for data bases other than AIM are available for a small fee.

HWC 1
Food safety/nutritional quality/food standards/microbial quality: the Food Directorate conducts programs to protect the safety, quality and nutritional value of food. These include the development of legal standards for food identity, under the Food and Drugs Act, and a range of regulatory and research activities to identify and control dangers associated with the nutritional quality of foods, and microbiological and chemical hazards in the food supply. The Directorate's work includes research and evaluation of scientific data on existing and potential foods, food constituents and nutrients, micro-organisms and microbial toxins, additives, agricultural chemicals, and chemical and biological contaminants in relation to actual or proposed use and occurrence in the Canadian diet. Such research contributes to the safety and quality of the food supply, to the formulation of appropriate standards and guidelines for products and manufacturing processes and for nutrient intakes, and to the provision of advice to other departments, agencies and organizations concerned with food. Inquiries: Ottawa/Hull (613) 957-1821.

HWC 2
Environmental quality and health hazards: the Environmental Health Directorate is engaged in programs that collectively serve to identify, assess and reduce health hazards in the environment, in consumer products and in medical devices. The Directorate serves to protect Canadians from health hazards associated with the physical, chemical and technological aspects of natural and man-made environments. Its work focusses on the following program areas: product safety; drinking water; environmental criteria; predictive toxicology; pesticides; exposure assessment; long-range transport of air pollutants; indoor air quality and energy; tobacco products; environmental radioactivity; X-rays; non-ionizing radiation; radiation dosimetry and occupational monitoring; radiopharmaceuticals; internal dosimetry; occupational radiation exposure evaluation; clinical assessment and pre-market review of medical devices; medical device research and criteria; device standards and testing; device notification; and device surveillance. INAC 28
Indian reserves/register: the Department records the status of Indian reserves and surrendered reserve land in accordance with established registers. Indian Lands Registry and Research Division; Lands, Revenues and Trusts. Inquiries: Ottawa/Hull (819) 994-3666.

INAC 29
Indian and Crown lands/register: the Department keeps records of interests and transactions affecting those interests, and provides certified documents showing evidence of interest in Indian and Crown lands of Canada to bands, individual band members, lawyers or agents of bands, officials of the Department of Justice, the public and the courts. Indian Lands Registry and Research Division; Lands, Revenues and Trusts. Inquiries: Ottawa/Hull (819) 994-3666.

INAC 30
Indians/land entitlement: the Lands, Revenues and Trusts Program researches departmental and other records and documents to determine the status of Indian and other lands. It ensures that Crown obligations under treaties and other commitments to the Indian people are met. Inquiries: Ottawa/Hull (819) 994-3444.

INAC 31
Indians/land management: the Department manages property and usufructuary interests in Indian reserves and surrendered lands. It acquires lands for addition to reserves and restores former reserve lands to reserve status. Lands Advisory Services; Lands, Revenues and Trusts. Inquiries: Ottawa/Hull (819) 994-3030.

INAC 32
Indians/treaty obligations: the Department is responsible for the administration of the federal government's treaty obligations to the Indian people, including treaty payments, and the provision of hunting, fishing and clothing supplies. Statutory Requirements; Lands, Revenues and Trusts. Inquiries: Ottawa/Hull (819) 997-5[illegible]00.

INAC 33
Native claims/negotiations: the Department represents the federal government in both comprehensive and specific claim negotiations with native groups. Self-government. Inquiries: Ottawa/Hull, comprehensive claims (819) 994-4232; specific claims (819) 994-4924; BC claims, Vancouver (604) 666-5302.

INAC 34
Specific claims: the Specific Claims Branch has assumed the responsibilities, in the specific claims area, of the former Office of Native Claims. Specific claims are based on grievances that Indian people might have about either the federal government's past administration of Indian lands and other assets under the various acts affecting Indians and reserve lands, or about the federal government's fulfillment of the Indian treaties and other agreements. The Branch reviews specific claims that have been presented to the government to identify and analyse the historical and factual elements relating to the claims. It consults with the Department of Justice respecting their legal basis. The Branch also represents the Minister of Indian Affairs and Northern Development and the federal government in specific claims negotiations with Indian bands across the country, identifies policy issues and makes recommendations concerning their resolution. Lands, Revenues and Trusts. Inquiries: Ottawa/Hull (819) 994-4924 or Vancouver (604) 666-5285.

Indian and Northern Affairs Canada *(continued)*
Indian lands *(continued)*

INAC 36
Indian reserves/administration: the Department processes and provides advice concerning quasi-judicial appointments (such as justices of the peace and commissioners for oaths) to provide services for the Indian people. Statutory Requirements; Lands, Revenues and Trusts. Inquiries: Ottawa/Hull (819) 997-9800.

INAC 37
Indian reserves/by-laws: the Department maintains a register of by-laws passed by various Indian bands. Statutory Requirements; Lands, Revenues and Trusts. Inquiries: Ottawa/Hull (819) 997-9800.

INAC 38
Indian reserves/environmental protection: the Indian Environmental Protection Branch provides Indian and Inuit people with funding and policy, program and technical support to enable them to respond effectively to the environmental protection challenges posed by renewable and non-renewable resource development projects (hydro construction, petro-chemical exploration and construction), environmental contaminants (oil spills, chemcial spills) and other occurrences that adversely affect their reserve lands, waters, property rights or traditional land use areas. The Branch is also responsible for fulfilling the obligations of the government of Canada and the Minister of Indian Affairs and Northern Development (in his fiduciary role) concerning protection of Indian lands and waters from potential adverse environmental impacts, and for ensuring remedial, mitigation or compensation entitlements to Indian people by the owners or proponents of projects where adverse incidents occur. Lands, Revenues and Trusts. Inquiries: Ottawa/Hull (819) 997-8424 or any regional office *see* Part II *under* cities listed above, or nearest district office *see* Part II.

Indian band membership and administration (INAC 39 – INAC 51)

INAC 39
Indian entitlement determination: the INAC Registrar determines whether individuals are entitled to be registered as Indians under the Indian Act. Band Membership Division; Lands, Revenues and Trusts. Inquiries: concerning the June 1985 amendments to the Indian Act and application for registration in the Indian Register, toll-free 1-800-567-9605 or Ottawa/Hull (819) 994-3902.

INAC 40
Indians/certificates of Indian status: the Department provides, on request, certificates of Indian status to persons registered as Indians under the Indian Act. Band Membership Division; Lands, Revenues and Trusts. Inquiries: Ottawa/Hull (819) 994-3902 or any regional office *see* Part II *under* cities listed above.

INAC 41
Indian Register: the Department maintains the Indian Register and band lists containing the names of all persons registered as Indians under the Indian Act, and maintains band lists for bands whose membership is recorded by the Department. Band Membership Division; Lands, Revenues and Trusts. Inquiries: Ottawa/Hull (819) 994-3902.

INAC 42
Band control of membership and band list: the Membership and Entitlement Directorate administers the provisions of the Indian Act affecting band membership control and transfer to a band of the responsibility for maintaining the band list. The Directorate processes the notice to the Minister from the council of a band, analyses the band's membership rules to determine whether they protect the acquired rights of persons and whether they are in conformity with the Canadian Charter of Rights and Freedoms, and reviews the consent given by the electors of the band concerning the membership rules and the band's intention to assume control of its own membership. Where the conditions of the Indian Act are met, the Minister notifies the band that it has assumed control of its own membership, and the Registrar then provides the band with a copy of the band list maintained in the Department. Lands, Revenues and Trusts. Inquiries: Ottawa/Hull (819) 953-2241, or any regional office *see* Part II *under* cities listed above, or nearest district office *see* part II.

INAC 43
Band Membership Rules Development Grant: the purpose of this grant is to help Indian bands develop membership rules. As defined in the Indian Act, bands are eligible to apply for assistance separately, jointly or through the auspices of an umbrella organization. The amount of assistance does not, on average, exceed $10 000 for any given band, and may be less if the band's membership rules are developed jointly or through an umbrella organization where economies of scale can be taken into account. Lands, Revenues and Trusts. Inquiries: Ottawa/Hull (819) 953-0975 or any regional office *see* Part II *under* cities listed above or nearest district office *see* Part II.

INAC 44
Band Membership Rules Implementation Grant: the purpose of this grant is to help Indian bands implement a system for administering their own membership provisions. Bands that have been given the mandate to assume control of their own membership by obtaining the consent of a majority of the electors of the band are eligible for the grant. The amount of assistance is determined by a formula based on the registered band membership on the date the band assumes control of this function, and is not to exceed $15 000. Lands, Revenues and Trusts. Inquiries: toll-free 1-800-953-0975, or any regional office *see* Part II *under* cities listed above, or nearest district office *see* Part II.

Indian and Northern Affairs Canada *(continued)*

Management of ocean resources: this Crown corporation was established in 1985 in the wake of the 1982 United Nations Conference on the Law of the Sea, which introduced a global plan for the sharing of the world's ocean resources. ICOD's mission is to co-operate with and support developing countries in the management of their ocean resources. Its objectives are to support improved and innovative approaches to the use of ocean resources by developing countries; to foster the development of Canadian expertise in ocean use management and to make this available to developing countries; to provide training programs, technical assistance and advisory services; to develop and distribute information; and, to a limited extent, to sponsor research consistent with ICOD's mandate. Many Canadian training and research centres already have strong links with foreign institutions and international development projects. ICOD's initiatives are meant to complement their work and the work of other national and international organizations involved in ocean development, and not to be a competitive venture.

NLC 14
Newspapers: reference and bibliographic services for a collection of Canadian and foreign newspapers, many of which are in microform, are provided to the public and libraries. Inquiries: Ottawa/Hull (613) 996-1338.

NLC 15
Service for handicapped persons: the National Library offers information and consultation concerning Canadian library services for disabled persons. It also maintains a union catalogue of special format materials, including works in progress, to improve information access for print handicapped persons. Inquiries: Ottawa/Hull (613) 992-7811.

Interlibrary services (NLC 16 – NLC 20)

NLC 16
Interlibrary loan: this service provides books and other library materials to the public through local libraries, as well as information on where these materials may be found. Inquiries from libraries: Ottawa/Hull (613) 996-3566.

NLC 17
Lending and document delivery: National Library collections are available, with some exceptions, through interlibrary loan, to users requesting material through their local library and to researchers at the National Library who are eligible to use the collections on the premises. The National Library participates in a variety of document delivery services which ensure prompt delivery of loaned items. Inquiries: Ottawa/Hull (613) 996-3260.

NLC 18
DOBIS Search Service: the National Library's on-line data base, DOBIS, containing more than four million records of library materials, is available to libraries and information centres across Canada. Inquiries: Ottawa/Hull (819) 994-6947 or 994-6945.

NLC 19
Library Documentation Centre: the Centre provides services to libraries, librarians and the public in the field of library and information science, and provides information about libraries in Canada. Inquiries: Ottawa/Hull (613) 995-8717.

NLC 20
Canadian Book Exchange Centre: the Centre accepts unwanted materials from federal government and other libraries and redistributes them to libraries that need them. Inquiries: Ottawa/Hull (613) 995-2317.

Cataloguing services (NLC 21 – NLC 22)

NLC 21
Cataloguing in publication: designated libraries across Canada provide Canadian publishers with pre-publication cataloguing records to be printed in their forthcoming books. The information is distributed promptly to libraries and booksellers, here and abroad, through the "Forthcoming Books" insert to *Quill & Quire, Livre d'ici*, and through all the bibliographic products of the National Library of Canada. Inquiries: Ottawa/Hull (819) 994-6881; Vancouver (604) 228-6838; Winnipeg (204) 474-9476; Toronto (416) 978-6716; Montréal (514) 873-7608.

NLC 22
ISBN and ISSN: standard identification numbers are assigned to books (ISBN) and serial publications (ISSN) published in Canada. ISBN numbers for federal publications are assigned by the Canadian Government Publishing Centre *see* SSC 12 *under* Supply and Services Canada. Inquiries: Ottawa/Hull, ISSN (819) 994-6895; ISBN (819) 997-9565.

Library facilities, cultural activities, research, publications (NLC 23 – NLC 28)

NLC 23
Conference and auditorium facilities: the National Library and Public Archives conference facilities are available for public use. Inquiries: Ottawa/Hull (613) 995-8665.

NLC 24
Group visits: group tours of the National Library can be arranged in advance throughout the year. Inquiries: Ottawa/Hull (613) 993-6618.

NLC 25
Exhibits: regular exhibits from National Library collections are presented at the Library. Inquiries: Ottawa/Hull (613) 993-6618 and 993-6657.

NLC 26
Cultural events: the National Library runs a cultural events program throughout the year, to make Canada's literary and musical heritage known and to support Canadian studies. The program consists of exhibitions, authors' readings, lectures, musical events and films. Inquiries: Ottawa/Hull (613) 993-6618 or 993-6657.

NLC 27
Network development: the National Library facilitates the development of decentralized, electronic Canadian library and information networking through research in computer and telecommunications technology; development of library applications of these technologies; design and co-ordination of pilot projects to test applications developed; and provision of networking co-ordination and liaison. Inquiries: Ottawa/Hull (613) 996-7386.

National Library of Canada *(continued)*
Library facilities, cultural activities, research, publications *(continued)*

NLC 28
Publications: the Publications Section produces a variety of documents to publicize the services, products, activities and collections of the National Library (bibliographies, brochures, exhibition catalogues, monographs and periodicals). Inquiries: Ottawa/Hull (613) 995-7969.

Federal libraries (NLC 29)

NLC 29
The Federal Libraries Liaison Office provides a link to all federal department libraries and provides a permanent secretariat to the Council of Federal Libraries. Inquiries: Ottawa/Hull (819) 997-9780.

National Museums of Canada (NMC)

Head Office
Centennial Towers, 8th Floor
200 Kent Street
Ottawa, Ontario
K1A 0M8

Information: Ottawa/Hull (613) 954-4400.

The National Museums of Canada aims to demonstrate the products of nature and the works of man, with special but not exclusive reference to Canada. Its policy supports activities that increase public access to the collections of Canadian museums and art galleries, and that lead to greater preservation of those collections. The NMC comprises, in a single administration, Canada's four national museums in the capital and a series of national programs that serve the Canadian public both directly and through hundreds of museums and related institutions across the country.
Minister responsible:
Minister of Communications

The museums (NMC 1 – NMC 4)

NMC 1
National Gallery of Canada: the National Gallery's permanent collection numbers more than 40 000 works of art, including the most important collection of Canadian art in the world. It also includes a collection of 15 500 photographs. The Gallery exhibits a constantly changing selection of paintings, sculptures, prints, drawings, films, video works and photographs from its collection. It shows important exhibitions from other countries and circulates its own exhibitions throughout Canada and abroad. For its visitors the Gallery's Education Division maintains a varied program of lectures, films and guided tours; the Publications Division produces a wide range of publications. The Canadian Museum of Contemporary Photography, formerly the Still Photography Division of the National Film Board, was founded and affiliated with the National Gallery of Canada in January 1985. Inquiries: National Gallery of Canada, Elgin and Albert Streets, Ottawa, Ontario K1A 0M8, (613) 990-1985; Canadian Museum of Contemporary Photography, Personnel Records Centre, Goldenrod Avenue, Tunney's Pasture, Ottawa, Ontario, K1A 0M8 (613) 990-8259.

National Museums of Canada *(continued)*
The museums *(continued)*

NMC 2
The Canadian Museum of Civilization (CMC) conducts research, collects and preserves artifacts, and disseminates information in the fields of Canadian archeology, ethnology, folk culture and social and military history. It issues scholarly and popular publications, organizes and sustains travelling exhibitions as well as permanent displays, produces educational resource materials in various media, and provides regional and visitor programs in its display facilities. The Canadian War Museum, which is now an associate museum of the Canadian Museum of Civilization, depicts the military history of Canada. Inquiries: Canadian Museum of Civilization, Victoria Memorial Museum Building, Metcalfe and McLeod Streets, Ottawa, Ontario K1A 0M8 (613) 992-3497; Canadian War Museum, 330 Sussex Drive, Ottawa, Ontario K1A 0M8, (613) 996-1420.

NMC 3
The National Museum of Natural Sciences maintains collections and conducts research in the fields of botany, zoology, mineral sciences and paleobiology. Its natural history displays are presented in six permanent halls as well as in temporary and travelling exhibitions. Knowledge derived from the Museum's research and collections is made available through a variety of popular and scientific publications, educational programs, loans of specimens, films, workshops, conferences, performances and nature excursions. Inquiries: Victoria Memorial Museum Building, Metcalfe and McLeod Streets, Ottawa, Ontario K1A 0M8, (613) 996-3102.

NMC 4
The National Museum of Science and Technology collects and exhibits artifacts illustrating the discoveries of modern science and the developments of technology. Its collections are in the fields of agricultural and industrial technology, astronomy, communications and space, graphic arts, and ground and marine transportation. The Museum's activities include permanent and temporary exhibitions, loans, air shows, monthly sky sheets and educational programs. The Museum's steam train carries passengers from Ottawa to Wakefield (Qué) and back during the months of July and August. For further information and tickets *see* NCC 17 *under* the National Capital Commission. The National Aviation Museum, containing more than 100 aircraft, is part of the National Museum of Science and Technology.
Together with Agriculture Canada, the NMST opened an Agriculture Museum in October 1983 in the loft of the historic dairy barn at the Central Experimental Farm in Ottawa. The Museum features two permanent exhibitions, *Haying in Canada* and *An Ontario Barn in the 1920s*, assembled with restored artifacts from the NMST's National Agricultural Collection. Inquiries: 1867 St Laurent Boulevard, Ottawa, Ontario K1A 0M8, (613) 998-4566; National Aviation Museum, Rockcliffe Air Base, Ottawa, Ontario K1A 0M8, (613) 993-2010; Agriculture Museum, Central Experimental Farm, Ottawa, Ontario K1A 0M8, (613) 998-4566.

National programs (NMC 5 – NMC 9)

NMC 5
Canadian Conservation Institute (CCI): the CCI provides specialized conservation services, research, training and information to protect heritage treasures in public collections. Its mobile laboratories visit museums in all parts of the country. Inquiries: 1030 Innes Road, Ottawa, Ontario K1A 0M8, (613) 998-3721.

NMC 6
Canadian Heritage Information Network (CHIN): this program assists museums in the development of automated and manual systems for the preservation and management of information about their collections, and provides a computerized mechanism for the sharing of that information. Over 150 institutions participate in the program, and the Network now contains data on more than five million objects. Inquiries: Journal Tower South, 12th Floor, 365 Laurier Avenue West, Ottawa, Ontario K1A 0M8, (613) 992-3333.

NMC 7
International Program: the International Program facilitates exchanges of exhibitions to and from Canada and fosters interest in international museum activities. Inquiries: Centennial Towers, 8th Floor, 200 Kent Street, Ottawa, Ontario K1A 0M8, (613) 954-4340.

NMC 8
Mobile Exhibits Program: the NMC's museumobiles travel to small, isolated communities in Canada that lack ready access to major museums. Their exhibits of artifacts, specimens and other illustrative materials depict the geographical, archeological, natural and social history of various regions of the country. Inquiries: 2785 Riverside Drive, 3rd Floor, Ottawa, Ontario K1A 0M8, (613) 998-3633.

NMC 9
Museum Assistance Programs (MAP): these programs provide financial and technical assistance to qualifying public museums, art galleries and other related institutions, to increase access to Canada's cultural heritage and to ensure the preservation of that heritage. Inquiries: 219 Argyle Avenue, 4th Floor, Ottawa, Ontario K1A 0M8, (613) 996-8504.

Publications (NMC 10)

NMC 10
Publications: all four national museums produce a variety of publications, both free and priced, which are available, on order, from the individual museums.

National Parole Board (NPB)

Headquarters
Sir Wilfrid Laurier Building
340 Laurier Avenue West
Ottawa, Ontario
K1A 0R1

Regional Offices: Vancouver (Burnaby), Saskatoon, Kingston, Montréal, Moncton.

Information: Ottawa/Hull (613) 995-1308; regional offices *see* Part II *under* cities listed above.

The National Parole Board is responsible for granting, denying or revoking parole for inmates of all federal institutions and inmates of provincial institutions in the Prairie and Atlantic provinces. It may also revoke mandatory supervision of federal inmates. The Board's work includes establishing eligibility criteria for conditional release, conditions of release, implementation of procedural safeguards, pardon recommendations, and communication and consultation with other components of the criminal justice system.
Minister responsible:
Solicitor General of Canada

NPB 1
Parole: the Board has absolute discretion to grant, refuse or revoke parole for inmates in federal institutions and in the provincial institutions in the seven provinces and two territories that have not established their own paroling authority.

NPB 2
Day parole: day parole is a limited form of parole designed to help inmates re-enter society on a gradual basis by enabling them to participate in treatment programs, take additional training or seek employment.

NPB 3
Temporary absences: the Board has authority over the granting of all unescorted temporary absences to inmates of federal institutions for medical or humanitarian reasons.

NPB 4
Review of Parole Board decisions: the Appeal Committee carries out internal re-examination of Parole Board decisions, if requested to do so by an inmate, when parole has been denied or revoked, or when mandatory supervision has been revoked.

NPB 5
Pardon/federal offences: pardon may be granted under the Criminal Records Act to assist people who have been found guilty of a criminal offence and who, having satisfied the sentence imposed, have subsequently shown that they are law-abiding citizens. The Clemency and Pardons Section of the Board conducts the investigation required for each case, after which the Board submits a recommendation to the Solicitor General on whether a pardon should be granted.

NPB 6
Mandatory supervision: Canadian law gives inmates of federal penitentiaries the right to serve the last third of a sentence in the community, under mandatory supervision, with the exception of those considered likely to commit an offence causing death or serious harm to another person before the end of their sentence.

National Research Council Canada (NRC)

Head Office
Montréal Road
Ottawa, Ontario
K1A 0R6

Other offices: *see* below *under* individual programs.

Information: Ottawa/Hull (613) 993-9101.

The National Research Council is the government's chief instrument for carrying out research and development in the natural sciences and engineering. NRC runs an extensive program of financial and technical support for industry; operates and supports major national facilities; maintains the national science library; publishes the Canadian journals of research; and plays a major part in supporting the national scientific infrastructure of committees, networks and learned societies.
Minister responsible:
Minister of State for Science and Technology

Science and technology/research and development (NRC 1 – NRC 9)

NRC 1
Laboratory research and development: this program is central to all NRC activities. Laboratories across the country, organized along multi-disciplinary lines and comprising more than a dozen divisions, carry out research in biological systems and processes; the performance of machines and mechanical structures; control systems and automated processes; the properties, uses and processing of materials; standards and methods of measurement; the design, construction and performance of buildings and engineered works; and basic phenomena.

NRC 2
Chemistry: research programs are concerned with materials – their formation, characterization, preservation, modification and use. NRC undertakes these programs in collaboration with government departments, provincial research organizations and industrial companies and universities throughout the world. Inquiries: Ottawa/Hull (613) 993-2330.

NRC 3
Physics: the Division of Physics consists of a microstructural sciences laboratory for research into the electronic structure of materials, with applications in the field of microelectronics; a basic standards laboratory, which maintains electrical, length, mass and time standards used by industry; and a general physics laboratory, where studies are carried out in the areas of acoustics, lasers and plasmas, mechanical and optical physics and photogrammetry. In acoustics research, scientists investigate the passage of sound through various media. This research is important in such fields as community planning, factory and office management and even enjoyable listening of home sound equipment. The Division also provides the exact time of day to the public. Inquiries: Ottawa/Hull, general (613) 993-1208; exact time of day – in English (613) 745-1576, in French (613) 745-9426.

NRC 4
Biological sciences: the Division of Biological Sciences, a component of the national biotechnology network, focusses on immunochemistry to develop products, new diagnostics and vaccines for both veterinary and human diseases; molecular genetics, to gain a better understanding of gene transfer and expression, leading to genetically modified micro-organisms of industrial interest; microbiology, directed at the metabolism and physiology of bacteria, yeast and fungi, to develop new fermentation products and processes; molecular biochemistry and biophysics, to provide an insight into structure-function relationships in biological systems, leading to the development of new industrial enzymes, drugs and diagnostic techniques; and cell physiology, principally mammalian cell proliferation, to develop new tests for carcinogenicity and new cancer diagnostics. Division of Biological Sciences. Inquiries: Ottawa/Hull (613) 990-0884.

NRC 5
Biomedical engineering: one of the three laboratories of the Division of Electrical Engineering, the biomedical engineering laboratory focusses on devices and techniques for medical, clinical and aid systems. Inquiries: Ottawa/Hull (613) 993-0330.

NRC 6
Intelligent systems: this laboratory focusses on advanced robotics and intelligent systems. Division of Electrical Engineering. Inquiries: Ottawa/Hull (613) 993-9010.

NRC 7
Electrical engineering: research in the laboratory for electromagnetic and power engineering is concerned with electrical and electromagnetic performance standards, and the operation of a national facility for measuring near and far radiation fields. Division of Electrical Engineering. Inquiries: Ottawa/Hull (613) 993-1384.

National Research Council Canada *(continued)*
Science and technology/research and development *(continued)*

NRC 8
Mechanical engineering: research and development activities cover thermodynamics, applied mechanics and hydrodynamics. The Division of Mechanical Engineering works closely with Canadian industry addressing problems of both long- and short-term concern. Close to half the research effort is related to transportation problems often unique to Canada. The development and application of technology to increase industrial productivity is another major program concentration. Vital to all application areas is an ongoing accumulation of basic engineering data and expertise as well as the operation of several national facilities for engineering research and development. Inquiries: Ottawa/Hull (613) 993-2424 or Vancouver (604) 542-4477 or 732-4477.

NRC 9
Space Division: all NRC's space research activities are grouped together under the new Space Division. With policy guidance from the Ministry of State for Science and Technology, the Division has responsibility for the Mobile Service System – a vital part of the US-manned Space Station. The Division is also responsible for a program aimed at identifying and developing areas in which Canadians can exploit the commercial and research potential of space, in collaboration with Canadian industries, government and university laboratories. The space research program previously co-ordinated by NRC's Canada Centre for Space Science, which encompasses efforts in the fields of microgravity, space physics, and upper atmosphere research, is now also a part of the division, as is the Canadian Astronaut Program. Currently there are six astronauts in the program, including Marc Garneau, the first Canadian in space. Inquiries: Ottawa/Hull (613) 993-0141.

Research institutes and laboratories (NRC 10 – NRC 20)

NRC 10
The Herzberg Institute of Astrophysics operates and maintains astronomical observatories as national facilities available to all interested scientists. It also conducts its own research programs in the fields of astronomy, space science and laboratory astrophysics, and is engaged in the development of new techniques and instruments for collecting and assessing observational data. Inquiries: Ottawa/Hull (613) 990-0907; (613) 996-1455 (solar) or 821-2480 (meteor); other offices *see* Part II *under* Penticton, Victoria, Saskatoon and Lake Traverse.

NRC 11
Plant Biotechnology Institute: a key component in the national biotechnology network, the Institute is Canada's national research centre for the development of new biological methods for improving agricultural, silvicultural and industrial crop plants. It serves the community of biotechnologists as much as the industry concerned with growing and processing plants. Inquiries: Saskatoon (306) 975-4191.

NRC 12
Biotechnology Research Institute: a component of the national biotechnology network, the Institute conducts generic research in biochemical engineering, genetic engineering, enzyme engineering, cell fusion and molecular immunology. Its objective is to establish, in partnership with Canadian industries and universities, a strong national research program that will have extensive and eventually dominant private-sector involvement. The program is designed to sustain industrial activity, make commercialization easier and support the rapid expansion of a range of competitive biotechnology products. Inquiries: Ottawa/Hull (613) 993-0541; Montréal (514) 283-4151.

NRC 13
Institute for Research in Construction (formerly the Division of Building Research): the Institute carries out studies to develop the technology needed for the design, construction and use of buildings in a cold climate. Research on the properties of materials, building design, energy efficiency, climatic loads and geotechnical areas is particularly important in preventing problems such as deterioration, condensation, air leakage, and structural instability. Other studies are carried out on fire safety design, sound insulation and acoustics, air quality, building systems and services, and the economics of construction and rehabilitation. The Canadian Construction Research Board assesses, on a continuing basis, the knowledge and research needs of the construction industry in Canada and provides policy and program direction to the Institute. The Institute also provides technical support for the National Building Code for Canada, the National Fire Code for Canada, the Measures for Energy Conservation in New Buildings, Building Standards for the Handicapped, Residential Standards and the Canadian Plumbing Code. The national model codes are published on a five-year cycle for adoption by provincial and municipal authorities. Inquiries: Ottawa/Hull (613) 993-2607; other offices *see* Part II *under* Revelstoke, Vancouver, Saskatoon and Halifax.

NRC 14
Industrial Materials Research Institute: concerned primarily with metals, polymers, ceramics and composites, the Institute aims to increase productivity and to improve the performance and durability of materials with industrial applications. Inquiries: Montréal (514) 641-2280.

National Research Council Canada *(continued)*
Research institutes and laboratories *(continued)*

NRC 15
Institute for Marine Dynamics, St John's: research includes investigation of problems such as oil-drilling and navigation in ice-infested waters, development of icebreaking techniques, and the design of ships adapted to ice conditions. Researchers use computers to analyse navigation conditions in ice-covered waters, computerized machine tools to build scale models of large ships, and large tanks to accommodate realistic tests on such models. Inquiries: Ottawa/Hull (613) 993-2265; St John's (709) 772-2472 or 772-2479.

NRC 16
The National Aeronautical Establishment (NAE) pursues research and development objectives in support of the Canadian aerospace community. Its laboratories include the Low Speed, High Speed and Unsteady Aerodynamics, Structures and Materials, and Flight Research laboratories, as well as a special project office that focusses on the application of NRC's scientific and engineering expertise within Canadian law enforcement, safety and health agencies.

NAE has major test facilities to support its own research. These are also available to outside agencies on a commercial or collaborative basis. The facilities direct efforts toward the development of advanced testing techniques and equipment. Inquiries: Ottawa/Hull (613) 993-0141.

NRC 17
TRIUMF: NRC's national Tri-University Meson Facility is concerned with intermediate energy nuclear science. Inquiries: Vancouver (604) 228-4711 or Ottawa/Hull (613) 993-1000.

NRC 18
Western Laboratory: research and development are carried out in the areas of tribology (friction, wear and lubrication); computer-aided manufacturing microprocessors; and small-scale technologies. Inquiries: Vancouver (604) 732-4477.

NRC 19
Atlantic Research Laboratory: the Laboratory performs research and development mainly in marine sciences and on industrial materials and processes relevant to the economy of the Atlantic provinces. The marine-related research includes studies of the biology, biotechnology and chemistry of organisms, particularly marine plants, and the development of marine analytical chemistry methodologies and standards. Research and development on materials and processes focus on the high-temperature metallurgical chemistry of steelmaking, the removal of sulphur from Atlantic coals, and on the development and use of specialized ceramics in industrial processes. Inquiries: Halifax (902) 426-8070.

NRC 20
Canada Institute for Scientific and Technical Information (CISTI): CISTI promotes and provides for the use of scientific and technical information by the people and government of Canada, to meet this country's needs for economic, regional and social development. It carries out its mandate by maintaining the national collection of scientific, medical and technical literature, and by offering a range of information services. Inquiries: Ottawa/Hull (613) 993-1600, 993-2441, or 993-2528.

Industrial research assistance (NRC 21 – NRC 22)

NRC 21
Industrial Research Assistance Program (IRAP): IRAP promotes the application and use of scientific and technological information for the economic and social benefit of Canadians. Under this program, skilled staff work with Canadian companies to identify industrial problems and opportunities that could benefit from research programs with the assistance of technical expertise and financial support. IRAP's network of federal, provincial and private-sector engineers and scientists is an important tool for assisting small and medium-sized firms in all regions of Canada. The laboratory component of the network helps Canadian companies with projects that take advantage of technology existing in laboratories both here and abroad. Inquiries: Ottawa/Hull (613) 993-2012; field offices *see* Part II *under* Vancouver, Burnaby, Calgary, Edmonton, Regina, Saskatoon, Winnipeg, Windsor, London, Waterloo, Welland, Mississauga, Toronto (Scarborough), Montréal, Québec, Trois-Rivières, Rimouski, Chicoutimi, Sherbrooke, Moncton, Fredericton, Saint John, Dartmouth, Wolfville, Charlottetown and St John's.

NRC 22
Technical assistance: NRC provides industrial troubleshooting assistance to industries in Canada that lack sophisticated technical resources, particularly small and medium-sized firms. A sound basis for technology transfer is provided by staff possessing long experience in this activity and who maintain close liaison with client firms. In addition, NRC provides assistance to firms seeking solutions to short-term scientific, engineering and technological problems, through the work of in-plant university or technical college students who are supervised by professional personnel. Inquiries: Ottawa/Hull (613) 993-3431; field offices *see* Part II *under* Vancouver, Burnaby, Calgary, Regina, Edmonton, Saskatoon, Winnipeg, Windsor, London, Waterloo, Welland, Mississauga, Toronto (Scarborough), Montréal, Sherbrooke, Québec, Rimouski, Trois-Rivières, Chicoutimi, Moncton, Fredericton, Saint John, Dartmouth, Wolfville, Charlottetown and St John's.

Natural Sciences and Engineering Research Council of Canada (NSERC)

Ottawa, Ontario
K1A 1H5

Information: Ottawa/Hull (613) 995-5992.

Minister responsible:
Minister of State for Science and Technology

NSERC 1
The Natural Sciences and Engineering Research Council is a federal agency that supports advanced research and development in the natural sciences and engineering at Canadian universities and encourages collaboration between the academic and industrial sectors. In 1985-86, the Council invested $311.6 million in university research and researcher training.

Northern Canada Power Commission (NCPC)

Head Office
7909 51st Avenue
(PO Box 5700, Station L)
Edmonton, Alberta
T6C 4J8

District Offices: Whitehorse, Yellowknife, Frobisher Bay.

Information: Edmonton (403) 465-3377; district offices *see* Part II *under* Whitehorse, Yellowknife and Frobisher Bay.

The Northern Canada Power Commission is a federal Crown corporation that operates under the authority of the Northern Canada Power Commission Act. It is concerned with the planning, construction and management of public utilities, primarily electrical, on a commercial basis.
Minister responsible:
Minister of Indian and Northern Affairs

NCPC 1
Public utilities/planning and construction: the Commission is empowered to survey utility requirements and construct utility plants in the Northwest Territories, Yukon Territory and, subject to the approval of the Governor in Council, elsewhere in Canada.

NCPC 2
Public utilities/operation: the Commission is the principal producer and provider of electricity to communities north of 60 degrees. It operates the main transmission networks in Yukon and the Northwest Territories. It also runs heat, water and sewerage service utilities at Inuvik, and provides wholesale heat supply to the Northwest Territories government for distribution at Frobisher Bay. Residual heat recovery systems are operated at several locations. It also provides power to the residents of Field, British Columbia.

The Department is responsible for the management of the public works of Canada and the federal real estate properties. The Minister of Public Works is also responsible for the Canada Museums Construction Corporation.
Minister responsible:
Minister of Public Works

PWC 1
Accommodation: Public Works provides accommodation to government departments and agencies through new construction, leasing, lease-purchase and use of existing Crown-owned buildings. It also ensures optimal use of this space. Realty management services include property management, operational and technical services, and accommodation services. Property management involves the planning and budgeting of operation and maintenance programs for client departments, including Canada Post Corporation. It also includes the implementation and control of building operation and maintenance work, done both in-house and by contract; tenant liaison; and lease administration. Operational and technical services include mechanical, electrical and architectural operation and maintenance, and building services. The department is also responsible for the Facilities Inventory System, accommodation utilization surveys, and the administration of pool housing, cafeterias, parking and conference facilities. Inquiries: plans and specifications for regionally tendered jobs are available at each regional office *see* Part II *under* cities listed above.

Public Works Canada *(continued)*

PWC 2
Federal Real Estate Services: the Department is responsible for the management and maintenance of federal real property (land and any building or other structure) and makes available a complete realty service by acquiring, appraising, surveying and developing real property; leasing accommodation from the private sector; letting accommodation to federal departments and agencies and the private sector; and providing an investment analysis system. It provides advice on the management of federal lands supervised by the corporations reporting to the Minister of Public Works. PWC is also concerned with expropriation and the disposal of buildings and land. It administers the Expropriation Act and maintains the Central Real Property Inventory (a computerized central record of the real property owned or leased on behalf of federal departments and agencies). The Department also administers the federal legislation providing for grants in lieu of property taxes on federal properties in municipalities across Canada.

PWC 3
The Canada Lands Company is a corporate structure under which subsidiary Crown corporations have been established and assigned management and development responsibilities for the properties involved, under agreement with the Minister of Public Works. The subsidiaries are the Canada Lands Company (Vieux-Port de Montréal) Limited, which has a mandate to implement a plan to revitalize and manage lands owned by the Crown in Montréal in the area between Amherst Street and the Bonaventure Highway at the south of Commune Street, including the Cité du Havre; the Canada Lands Company (Vieux-Port de Québec) Inc, whose mandate is to implement a development framework for the revitalization of about 29 hectares of land and water lots in Québec City; the Canada Lands Company (Mirabel) Limited, whose mandate is to administer the Mirabel Peripheral Lands and to prepare and execute a plan for disposal of lands no longer required for protection of the airport. PWC 5
Master Specifications Secretariat: the Secretariat serves the needs of public and private sectors on matters pertaining to the National Master Specification (NMS). The NMS is not a standard specification; it contains most of the specifications required for buildings and marine and heavy civil engineering works. The NMS is stored on a computer and must be edited by the designer to suit individual project requirements. The Secretariat's services include the development, maintenance and update of the NMS; provision of computer tapes on the NMS via Supply and Services Canada to private-sector distributors for sale in hard copy or on diskettes (for word processors and minicomputers); provision of advice, assistance and training courses on NMS usage; and production of reports, schedules, manuals and the *Addenda* newsletter.

PWC 6
Documentation Centre: the Department prepares standards, guidelines and similar technical documents for the use of architects, engineers and staff in the design and construction of buildings and in marine, road and bridge works. These documents are stocked by the Documentation Centre and may be furnished to other departments and to the public upon request.

PWC 7
Marine Program: the Department provides for the construction, improvement, maintenance and operation of PWC dry docks, locks and dams. It offers design and construction services for the planning, establishment and maintenance of marine facilities, including harbours, wharves and breakwaters, which are required for federal programs carried out by Fisheries and Oceans, Transport Canada and other government departments and agencies. Services for dredging by Department-owned dredges as well as by contractors are also offered. The Department also provides water level control for the support of industry.

PWC 8
Transportation: the Department is responsible for the construction and maintenance of roads and bridges that come under the exclusive jurisdiction of the federal government, the most notable being the Northwest and Yukon Highway Systems. It is also responsible for the construction of the Trans-Canada Highway through national parks, as well as for the federal government's share of the responsibility for the administration, design, construction and maintenance of international, interprovincial and extraprovincial bridges and tunnels. As part of the Services Program, the transportation group provides for supervision of road and bridge construction programmed by other government departments, such as the construction of national parks roads and development roads in Yukon and the Northwest Territories.

Public Works Canada *(continued)*

PWC 9
Emergency preparedness: the Department is responsible for the control and regulation of engineering and construction resources in a national emergency, and for plans and arrangements in collaboration with municipal and territorial governments for protection of the population against the wartime effects of radioactive fallout and other weapon effects. It is also responsible for the provision and maintenance of emergency operations centres for the Continuity of Government Program and for timely emergency response during peacetime and wartime emergencies.

Revenue Canada Taxation (RCT)

Head Office
875 Heron Road
Ottawa, Ontario
K1A 0L8

District Offices: all provincial capitals (except Fredericton) as well as Vancouver, Penticton, Calgary, Saskatoon, Thunder Bay, Sudbury, Hamilton, Windsor, London, Kitchener, St Catharines, Mississauga, Scarborough, Belleville (with a sub-office in Kingston), Ottawa, Rouyn, Laval, Montréal, Saint-Hubert, Sherbrooke, Québec district office sub-offices in Chicoutimi, Rimouski and Trois-Rivières, Saint John (with a sub-office in Bathurst), Sydney.

Information: any district taxation office *see* Part II *under* provincial capitals and other cities listed above or *see* the Toll-free Telephone Service section, page 17.

Revenue Canada Taxation administers the government's tax policy, which is initiated by the Department of Finance. It assesses and collects individual and corporate income taxes under the Income Tax Act of Canada. Individual income tax is collected for all provinces except Québec, and corporate tax is collected for all provinces except Québec, Ontario and Alberta. The Department also collects Canada Pension Plan contributions and unemployment insurance premiums.
Minister responsible:
Minister of National Revenue

Income tax collection (RCT 1 – RCT 5)

RCT 1
Income tax returns: Revenue Canada Taxation mails personalized Federal and Provincial Individual Income Tax Returns (T1 forms) automatically to previous filers, who receive either the T1 General or the T1 Special, according to the information reported in their previous year's return. The T1 Special is available in the personalized format only, and is sent to taxpayers whose tax affairs appear uncomplicated. The T1 General is available in a non-personalized format from district taxation offices and post offices for taxpayers who have never filed a tax return, did not file a return for the previous year, can no longer use the T1 Special because of a change in their tax affairs, or have lost or did not receive their personalized T1 General or T1 Special.

RCT 2
Source deductions: most taxpayers pay their income tax through deductions from their pay cheques. Their employers remit these funds to Revenue Canada Taxation each month, either through their banks or directly to the taxation centre. The Department records all employer deductions on computer files.

RCT 3
Instalment payments: taxpayers must pay their income tax in instalments unless tax is deducted at source from at least three-quarters of their net income, or their net federal tax payable for the current or preceding year does not exceed $1000. An *Instalment Guide for Individuals* and *Instalment Guide for Farmers and Fishermen* are available from all district taxation offices.

RCT 4
Non-residents: with a few exceptions, individuals who are not resident in Canada must pay tax on certain income from Canadian sources, including interest, dividends, management fees, income from estates and trusts, rents, royalties, alimony, pensions and annuities. This tax is referred to as withholding tax, since the organization or individual making the payment to Revenue Canada Taxation is required to withhold the tax at source. The statutory rate of withholding tax is 25 per cent unless otherwise stated in a provision of the Income Tax Act or one of the many tax treaties concluded with foreign countries to prevent double taxation.

RCT 5
Collection of tax arrears: in fairness to the majority of taxpayers who pay their taxes by the due date, the Department takes a firm approach in dealing with those who do not. It sends delinquent remitters letters to remind them of their debt and to request payment. If no response is received, it issues a demand for payment along with a written notice that describes the taxpayer's legal rights and provides information about contacting the Department to discuss the taxpayer's particular circumstances. If neither payment nor a mutually satisfactory arrangement is made as a result of this notice, collections officers will make every effort to contact the taxpayer directly, before proceeding with contemplated legal action. This prevents surprises and allows the taxpayer and the collections officer to work out an acceptable schedule for payment. When these efforts do not result in the settlement of a taxpayer's debt, taxes and other amounts owing may be collected by means of garnishment of wages, bank deposits and other income, or by means of seizure and sale of assets.

Income tax information and publications (RCT 6 – RCT 10)

RCT 6
Taxation publications: in addition to the income tax guide that accompanies each tax return, other guides designed to meet the needs of specific groups of taxpayers are available at all district taxation offices. Various series of publications in everyday language dealing with specific aspects of taxation, and technical interpretation bulletins, information circulars and certain advance income tax rulings intended for accountants, lawyers, tax specialists, and individuals requiring more detailed explanations are also available from these offices. *Taxation Statistics*, an annual in-depth analysis of tax returns, is available from the Canadian Government Publishing Centre, Supply and Services Canada, Ottawa, Ontario K1A 0S9 or from associated bookstores *see* page 529.

Revenue Canada Taxation *(continued)*
Income tax information and publications *(continued)*

RCT 7
Media information: the Department prepares resource packages for daily and community newspapers and for certain foreign-language media serving areas with large ethnic populations. It also distributes public service announcements giving answers to common taxpayer questions or information on changes in tax legislation to radio and television stations during the filing period. In addition, it offers close-captioned television programs on completing tax returns to TV stations across the country during the filing period. Inquiries: Public Affairs Officer at any district taxation office *see* Part II *under* cities listed above, or *see* the Toll-free Telephone Service section, page 17.

RCT 8
Films: the Department has produced several films dealing with various aspects of Canada's tax system, including animated films and feature-length dramas. All are available from local National Film Board offices *see* Part II.

RCT 9
Employer's kit: every district taxation office provides employer's kits for new employers. The kit explains the procedures for payroll deductions of income tax, Canada Pension Plan contributions and unemployment insurance premiums, and contains the registration form necessary to obtain an employer number.

RCT 10
Information on charities: taxpayers with questions about registration guidelines, departmental policies, and other administrative and legislative matters relating to registered charities and Canadian amateur athletic associations can contact the Charities Division of the Department by calling Ottawa/Hull, toll-free 1-800-267-2384.

Income tax services (RCT 11 – RCT 17)

RCT 11
Inquiry service: the Department answers all questions from taxpayers on tax deductions, exemptions, and credits; provides information on filing and the status of returns and refunds; and explains assessment notices through its telephone and counter inquiry service in all district taxation offices. From February to April, the public inquiries telephone service of all district taxation offices provides service beyond normal working hours. Inquiries: any district taxation office *see* the Toll-free Telephone Service section, page 17.

RCT 12
Seasonal tax offices: from February to April, Seasonal Tax Assistance Centres (STACs) provide an over-the-counter general tax and filing information service to residents of various communities at some distance from a district taxation office. Opening of the STACs is advertised in advance through the local media.

RCT 13
Assistance to the visually and hearing-impaired: all district taxation offices provide audiotape versions of the general tax guide for visually impaired taxpayers. Hearing-impaired taxpayers may obtain tax information and assistance by using a Telephone Device for the Deaf and calling 1-800-665-0354.

RCT 14
Volunteer Program: this program is designed to help taxpayers who cannot complete their own returns because of age, infirmity, language or other reasons. District taxation office staff offer special training sessions to teach representatives of community organizations and other interested individuals how to complete basic tax returns. These volunteers then assist other taxpayers free of charge. Inquiries: Public Affairs Officer at any district taxation office *see* Part II *under* cities listed above, or *see* the Toll-free Telephone Service section, page 17.

RCT 15
Native Peoples Outreach Program: this program trains volunteers of Indian and Métis communities to help members of their band complete their tax returns. Inquiries: Public Affairs Officer at any district taxation office *see* Part II *under* cities listed above, or *see* the Toll-free Telephone Service section, page 17.

RCT 16
Teaching Taxes Program: this program provides learning materials for students of economics, mathematics, business, social studies, consumer education – any subject related to taxation. Inquiries: Public Affairs Officer at any district taxation office *see* Part II *under* cities listed above, or *see* the Toll-free Telephone Service section, page 17.

RCT 17
Advance income tax rulings: on request, the Department will provide taxpayers with a binding ruling advising them how it will interpret specific provisions of the tax law that apply to transactions they are contemplating. However, the Department is unable to rule on certain matters. Requests should be sent to the Rulings Directorate, Revenue Canada Taxation, 875 Heron Road, Ottawa, Ontario K1A 0L8. There is a fee for this service.

Income tax audits and appeals (RCT 18 – RCT 20)

RCT 18
Audits: to ensure compliance with tax laws, the Department carries out random audits of individual and corporate returns filed and investigates suspected tax evaders.

As the federal police force, the RCMP is responsible for the prevention and detection of offences committed against federal statutes and for the provision of investigative and protective services to federal departments and agencies.
Minister responsible:
Solicitor General of Canada

RCMP 1
Federal, provincial, territorial and municipal police services: the RCMP provides police services, under the terms of policing agreements, to the territories and all provinces except Ontario and Québec, and, under separate municipal policing agreements, to 186 municipalities in eight provinces. Under the terms of the policing agreements, the RCMP serves as a provincial police force to enforce the Criminal Code, provincial statutes or territorial ordinances, and as a municipal police force to enforce the Criminal Code, provincial statutes and municipal by-laws. Provisions within the Provincial Policing Agreements stipulate the population level at which a community must provide its own police service (in Saskatchewan, Nova Scotia, Alberta - 1500; New Brunswick - 2500; Manitoba, British Columbia and Prince Edward Island - 5000). Provincial legislation allows communities in excess of these population levels to either establish their own municipal police force or enter into a RCMP Municipal Policing Agreement, through an application to the Solicitor General of Canada. The current Provincial, Territorial and Municipal Policing Agreements cover the period from 1 March 1981 to 31 March 1991. The costs of all the agreements are shared between the province, territory or municipality and the federal government.

Statistical services (SC 44 – SC 58)

SC 44
Inquiry and consultative services: advisory services staff in Statistics Canada's regional offices answer requests for statistical information and offer assistance in the use of statistics, handling referrals as necessary. They also offer educational services, such as seminars and workshops, and can arrange direct access to CANSIM. Certain special services are provided on a cost-recovery basis. Study areas and photocopying facilities in the regional offices are available to visitors.

SC 45
CANSIM: the Canadian Socio-Economic Information Management System is a statistical data bank accessible to the public through computer terminals and on computer tapes. It contains more than 400 000 time series data, a bank of socio-economic data, and all data from the 1976 and 1981 census of population. A folder for potential users describing this service is available on request.

SC 46
Telichart: this service provides colour graphics of key economic series from CANSIM on personal computer or Telidon terminals. It is particularly useful to businesses and research organizations. CANSIM. Inquiries: Ottawa/Hull (613) 990-8200; regional offices *see* Part II *under* cities listed above.

SC 47
Library: Statistics Canada's library maintains a comprehensive collection of publications on statistical topics and social and economic issues. Visitors are welcome. Inquiries: Ottawa/Hull (613) 990-8219, Coats Building, 2nd Floor, Tunney's Pasture, Ottawa K1A 0T6.

SC 48
Custom tabulations/unpublished data: statistics not available through Statistics Canada's standard products, screened to prevent disclosure of confidential information, can be provided through the regional offices or from certain contact points within the agency. A directory listing this information, titled *Statistics Canada Directory to Microdata and Special Tabulations, 1984*, is available.

SC 49
Microdata tapes/individual records: for some programs, including the Census of Population and Housing, Statistics Canada provides unaggregated records of individual respondents on computer tape. These records, which are presented in formats that strictly prevent the identification of any respondent, allow users to perform cross-tabulations that fit their needs.

SC 50
Publications/microfiches/computer tape: Statistics Canada prepares and issues more than 500 publication titles a year, representing annually 2500 publications. These include *The Statistics Canada Daily*, official release vehicle for statistical information; the *Infomat*, a weekly review of the most important statistics of the week; the monthly *Canadian Statistical Review* and *Current Economic Analysis*; the periodical, *Survey Methodology*; compendia such as the *Canada Year Book* and *Canada Handbook*; and research works on important social and economic issues. Most are available on microfilm, microfiche or computer tape. In addition, a range of publications, many of them directed specifically to various user groups, are available to assist in the location and use of statistics. Titles include *How Communities Can Use Statistics* and the *Index to Municipal Data*. Single copies of the *Statistics Canada Catalogue*, which lists all available titles and their prices, may be ordered from any regional office (copies are $5.00 each). Inquiries: Statistics Canada publications are generally available in major public and university libraries and at Statistics Canada regional offices, and some can be purchased from major bookstores across the country *see* the list of associated bookstore agents on page 529.

SC 51
Federal department and agency sharing: as a common service organization, Statistics Canada provides statistical services to other federal departments and agencies. It also conducts a statistical and paperburden review of new information collection plans, and provides consultative and advisory services as required.

SC 52
Liaison with user constituencies: specialized employees provide liaison with Statistics Canada's major user constituencies: academics, business, labour unions, federal departments and agencies, provincial and municipal governments, federal and provincial legislatures, Canadian and international statistical organizations, professional groups and the media. Inquiries: Statistics Canada regional advisory services staff can direct inquiries to the appropriate personnel in Ottawa.

SC 53
Geographical and mapping services: Statistics Canada conducts research projects to assist users by defining geographical areas that will be compatible with their needs. It also provides manual and computer-assisted mapping services, including thematic mapping and a custom geographical and demographical information retrieval service for census data.

SC 54
Statistical methodology: consultation is offered in survey design and development, questionnaire design, interpretation and analysis of statistical data, and time series methodology.

SC 55
Surveys, special: Statistics Canada designs, manages and implements special surveys for federal and provincial government departments, institutions and agencies.

SC 56
Models, statistical: Statistics Canada maintains a variety of social and economic models for use by analysts in both public and private agencies. These include input-output and demographic models.

SC 57
Searches/pensions and citizenship: searches are carried out on behalf of persons needing documentation of proof of age, place of birth or length of residence in Canada for pension and citizenship purposes.

SC 58
Exhibitions: Statistics Canada displays its products and provides information on its services at appropriate conferences and exhibitions and in libraries throughout the nation.

Major data collection methods (SC 59 – SC 63)

SC 59
Census of Population and Housing: every five years Statistics Canada conducts a survey of all Canadians, which provides basic demographic data as well as information on language, education, labour force activity and characteristics of dwellings and households. Every ten years, and for the first time in 1986, the census also produces information on ethnicity, immigration, occupations, income and shelter expenditures. This data is available in publications, microfiche and machine-readable printouts for various geographical census areas.

Statistics Canada *(continued)*
Major data collection methods *(continued)*

SC 60
Labour Force Survey: Statistics Canada's monthly Labour Force Survey provides a range of data on the labour force, including information on the employment and unemployment of Canadians aged 15 years and older.

SC 61
Census of Agriculture: this survey of all Canadian farms describes important aspects of the structure of farming in Canada, including land use and inventories of crops, livestock, buildings and machinery.

SC 62
Consumer Price Index: the CPI monitors retail prices for consumer goods and services by regularly recording the prices of a basket of typically purchased items. The basket is updated periodically to reflect changes in purchasing patterns over time. Statistics are made available each month.

SC 63
Small Area Data: this program responds to the identified needs of users by developing new small area data sets. These are being created primarily by adapting administrative records to statistical purposes and by using statistical estimation techniques that place no added burden on survey respondents. New data already produced or being developed include population estimates, labour market indicators, annual family income estimates and standardized municipal finance data. The publication entitled *Urban Forward Sortation Area and Rural Postal Code Summary Data, 1984* presents a demographic and socio-economic portrait of the taxfilers of 7000 specific postal code areas. The data presents population characteristics that include age group, sex, income and labour force status. The implementation of The Canada Conversion File is an important new tool that allows users to establish relationships between postal code areas and Statistics Canada's standard geographical areas.

Canadian Centre for Justice Statistics (SC 64)

SC 64
The Canadian Centre for Justice Statistics is a federal-provincial entity that co-ordinates resources directed towards compiling information and statistics on the entire Canadian justice system. Inquiries: Ottawa/Hull (613) 990-9023.

Supply Program (SSC 1 - SSC 16)

SSC 1
Provision of goods and services: Supply and Services Canada is responsible for the federal government's supply program. It aims to acquire goods and services and to provide them to customer departments and agencies in the most economical manner possible, while using procurement to promote the government's economic and regional development objectives. The department purchases professional and specialized services as well as goods and services of a scientific, technical and commercial nature, including film and video. Other supply responsibilities include printing and publishing, advertising management, expositions, equipment maintenance and repair, and disposal of surplus government material. Inquiries: for a list of major goods and services purchased by Supply and Services Canada on behalf of departments and agencies of the federal government, Ottawa/Hull (819) 997-2686; by mail - Supplier Relations Section, Statistical Information and Data Management Branch, Supply and Services Canada, Ottawa, Ontario K1A 0S5.

SSC 2
Federal procurement/method of acquisition: Supply and Services Canada solicits bids from vendors listed on its headquarters or regional source lists to fill federal government requirements. Firms listed at the regional level must have an office or a branch within the geographical area covered by the SSC regional office concerned. The department maintains a separate list of firms and organizations capable of conducting scientific activities. This list is based on a key-word system and provides profiles of experience, expertise and special capabilities. Inquiries: Ottawa/Hull (819) 997-2686; by mail - Supplier Relations Section, Statistical Information and Data Management Branch, Supply and Services Canada, Ottawa, Ontario K1A 0S5.

SSC 3

SSC 4
Unsolicited Proposals Program: an adjunct to the federal government's contracting-out policy in science and technology, this program allows Canadian private-sector and commercial industry the opportunity to submit, on their own initiative, proposals for scientific work or for demonstration of new technologies in operational settings. Individuals, private organizations and commercial industries that reside in Canada, are incorporated (or recognized as such) under federal or provincial legislation, and are carrying out activities in Canada are eligible. Included are non-profit organizations, universities, public institutions, such as provincial research organizations, and industrial research institutes jointly operated by groups of commercial enterprises. An unsolicited proposal must be sponsored by a government department, have scientific merit and technical feasibility, and contain unique ideas or special capabilities or offer opportunities that justify waiving the normal competitive procedures. An interdepartmental committee chaired by Supply and Services Canada evaluates the proposals. If an unsolicited proposal is accepted by a sponsoring department whose budget cannot totally support it, Supply and Services Canada will provide assistance from its Unsolicited Proposals Fund until the sponsor can assume financial responsibility. Inquiries: for guidelines for preparing and submitting unsolicited proposals, or more information, Ottawa/Hull (819) 997-7428; by mail – Director of Programs, Science Branch, Science and Professional Services Directorate, Supply and Services Canada, Ottawa, Ontario K1A 0S5.

SSC 5
Public Awareness Program for Science and Technology: this program provides funding assistance for projects or activities that promote public awareness and understanding of science and technology. The financial assistance provided is a contribution to partially cover the costs of a project. In exceptional circumstances, the program may award long-term financial support to well-established organizations. In these cases the contribution should not form the major source of income. Eligible organizations (preferably legally constituted) include non-profit organizations, associations or societies; various media organizations (for example, publishers of magazines and periodicals, producers of films and radio or television programs); as well as producers of unique exhibits, seminars, workshops or other popular science activities. Although a university may be associated with a project, neither universities nor government departments or agencies are eligible for these awards.

A committee comprising representatives from the private sector select the proposals. Selection criteria include quality of the project proposal, project feasibility and financial considerations. The results of a competition are usually available within two or three months. Program changes may occur prior to the competition. Inquiries: Ottawa/Hull (819) 997-7366; by mail – Program Officer, Science Programs Branch, Science and Professional Services Directorate, Place du Portage, Phase III, 12C1, 11 Laurier Street, Hull, Québec K1A 0S5.

SSC 6
The Canadian Government Expositions Centre provides federal departments and agencies with a range of exhibit services to support their communications objectives. These services include research and design; exhibit management; construction and renovation of exhibits and displays; and signage services, in accordance with Federal Identity Program (FIP) guidelines. The Centre provides these services itself and also purchases them from the private sector at home or abroad. Inquiries: contract work, Ottawa/Hull (613) 993-9566; by mail – Canadian Government Expositions Centre, Supply and Services Canada, 440 Coventry Road, Ottawa, Ontario K1A 0T1.

SSC 7
The Canadian Government Film and Video Centre is the common service agency that produces or procures film, video and photographic services on behalf of federal government departments and agencies. The Centre also offers consulting, programming and distribution services and can provide practical field research assistance for special photographic needs. Inquiries: Ottawa/Hull (613) 993-1848; by mail – Canadian Government Film and Video Centre, 440 Coventry Road, Ottawa, Ontario K1A 0T1.

These publications may be consulted at any depository library in Canada (for list of libraries *see* page 539) and are also sold through bookstores associated with the Canadian Government Publishing Centre *see* page 529. Inquiries: information and telephone orders, Ottawa/Hull (819) 997-2560; mail orders – Canadian Government Publishing Centre, Supply and Services Canada, Ottawa, Ontario K1A 0S9; for permission to reproduce a part of a federal publication (written requests only) – Canadian Government Publishing Centre, Publishing Services Group, Supply and Services Canada, Ottawa, Ontario K1A 0S9.

SSC 9
Depository libraries: through an appropriation from Parliament, the Canadian Government Publishing Centre operates the Depository Services Program, which enables designated libraries across Canada to obtain Government of Canada publications free of charge. Full depository libraries automatically receive one free copy of all publications appearing in the *Weekly Checklist of Canadian Government Publications* (a listing of parliamentary and departmental publications that have been released during the week by the Publishing Centre). Selective depository libraries are entitled to receive, upon request, one free copy of any title listed in that publication. Depository Program. Inquiries: Ottawa/Hull (819) 997-2560.

SSC 10
Printing services: Canadian Government Printing Services is the organization responsible for supplying Parliament and federal government departments and agencies with a range of printing and related services. These are supplied both through the Canadian Government Printing Services' printing facilities and through commercial suppliers. Inquiries: Ottawa/Hull (819) 997-2732; by mail – Canadian Government Printing Services, Supply and Services Canada, Printing Bureau Building, 45 Sacré-Coeur Boulevard, Hull, Québec K1A 0S9.

SSC 11
Canada Gazette and *Unclaimed Balances*: the *Canada Gazette* is published in English and French in three parts sold individually and by subscription. *Part I*, published every Saturday, contains material that federal statute or regulation requires to be published in the *Canada Gazette* (other than items identified for parts II and III). *Part II*, published every second Wednesday, contains statutory regulations and other classes of statutory instruments and documents. *Part III* contains the public acts of Parliament and their enactment proclamations. It is published at irregular intervals as soon as is reasonably practicable after royal assent. The publication *Unclaimed Balances* gives a list of persons whose accounts with domestic Canadian banks have remained dormant for nine years. It is published once a year. Inquiries: Ottawa/Hull (819) 997-1988.

SSC 12
ISBN/federal publications: the Canadian Government Publishing Centre assigns ISBN standard identification numbers to all federal books published in Canada. Inquiries: Ottawa/Hull (819) 997-5365; by mail – Depository Services Program, Documentation Section, Canadian Government Publishing Centre, Supply and Services Canada, Printing Bureau Building, Room A-2403-I, 45 Sacré-Coeur Boulevard, Hull, Québec K1A 0S9.

SSC 13
Advertising services/contract management: the Communications Services Procurement Branch manages contracts for the provision of advertising services, on behalf of federal departments and agencies. Its activities include contracting for advertising agency services and for the purchase of media space and time through the Agency of Record; performing central auditing, account payment and billing services; and maintaining an advertising management information system. The Branch is also responsible for contracting for all public relations and related communications services. Inquiries: Ottawa/Hull (819) 997-7266.

SSC 14

TRFB 5
Economic inquiries: the Board, at the request of the Minister of State for Finance, carries out economic inquiries on any matter affecting Canadian trade. The Board also hears petitions from Canadian producers for safeguard action against imports under the General Preferential Tariff, where there is injury or threat of injury to Canadian industry. The Board is usually directed to include recommendations with respect to levels of duty and tariff nomenclature in its reports to the Minister, which are required by law to be tabled in Parliament.

Telefilm Canada (TFC)

Head Office
National Bank of Canada Tower, 25th Floor
600 De la Gauchetière Street West
Montréal, Québec
H3B 4L2

Regional Offices: Vancouver, Toronto, Halifax, Los Angeles (USA), Paris (France), London (England).

Information concerning programs: Montréal (514) 283-8546; Toronto, Vancouver and Halifax regional offices *see* Part II; Los Angeles office (213) 859-0268, 144 South Beverly Drive, Suite 400, Beverly Hills, California, USA 90212; Paris office (33) 1-4563.70.45, 15 De Berri Street, 75008 Paris, France; London office (44.1) 437-8308, 44 Great Marlborough, London, England W1V 1D8.

Telefilm Canada, formerly known as the Canadian Film Development Corporation, is charged with fostering the growth and development of the private sector of the Canadian film industry. It does not produce or distribute programming itself, but finances the production and commercial distribution of feature films and television programs produced by Canadian companies. Telefilm Canada is headed by a board of directors and a chairman appointed by the Governor in Council, and is financed by a yearly appropriation from Parliament.
Minister responsible:
Minister of Communications

TFC 1
Canadian Broadcast Program Development Fund: Telefilm Canada finances, by means of equity investment, secured loans or loan guarantees, high-quality Canadian productions in the categories of drama, variety, documentary and children's programming. Each project must meet Telefilm Canada Canadian content standards and must have secured a guarantee from a Canadian over-the-air broadcaster to broadcast the program within two years of completion. For the purpose of the Canadian Broadcast Program Development Fund, Canadian over-the-air broadcasters are understood to be the CBC/Radio-Canada, all private over-the-air stations or networks and provincial educational authorities that hold a television broadcasting license.

TFC 2
Feature Film Fund: Telefilm Canada provides financial assistance in the form of loans, equity investment and advances for the production and distribution of Canadian dramatic feature films. These various forms of financing are intended to complement other funding sources. Productions selected for financing are those with a high level of creative Canadian content. Telefilm Canada is favourable to themes that reflect the Canadian character and way of life, but does not intend to restrict filmmakers in their choice of subjects. It determines the eligibility of each project following careful assessment by its consultants and script readers.

In order for Telefilm Canada to activate its financial participation in the production of a feature film, a signed contract must exist between an eligible producer and an eligible distributor who guarantees the film's theatrical release within one year of completion. In addition, a national distribution plan covering both language markets is required.

Telefilm Canada may also fund eligible companies for packages of projects. It will provide assistance to develop international co-productions and pre-sales, and to enhance the foreign sales and promotion of Canadian productions. Assistance is also available through the Versioning Assistance Fund. Productions financed through the Feature Film Fund cannot also be financed through the Canadian Broadcast Program Development Fund, nor vice-versa.

Scripts or outlines for projects may be submitted to any Telefilm Canada office *see* cities listed above.

TFC 3
Interim financing: Telefilm Canada provides recoverable advances for script and project development to enable producers to start filming before permanent financing has actually been finalized. Advances are also available for the Canadian launching of completed feature films in all media (except in instances where Telefilm Canada has an equity investment in the distribution) and to Canadian export sales agents to assist them in the foreign marketing of productions.

TFC 4
Industrial and Professional Development Fund: this fund supports the industrial expansion and development of the film and video industry in all regions of Canada, and contributes to the development of trade professionals, producers and distributors.

TFC 5
Co-productions: Canada has co-production treaties with the United Kingdom, Belgium, France, Spain, Italy, West Germany, Algeria and Israel. Telefilm Canada is responsible for the administration of these treaties and for the projects produced under them. Through its Montréal office, the corporation receives and evaluates applications for recognition of projects as official co-productions. It makes a recommendation to the Minister of Communications for either the approval or rejection of each application.

Telefilm Canada *(continued)*

TFC 6
Film promotion: Telefilm Canada's Festival Office is responsible for co-ordinating Canadian participation in international film festivals and for providing information on the Canadian industry at international film festivals and markets. It also administers a grants program for Canadian film festivals.

TFC 7
International Marketing Assistance Fund: this is open to eligible foreign sales companies. Telefilm Canada may advance funds for the creation of advertising and promotional materials for use in foreign markets, for ad placement in the international media and for the dubbing, subtitling or transferring of productions for specific preview and marketing purposes.

War Veterans Allowance Board (VA 8)

Head Office
Daniel J MacDonald Building, 2nd Floor
161 Grafton Street
(PO Box 7700)
Charlottetown, Prince Edward Island
C1A 8M9

Information: Charlottetown (902) 566-8080.

VA 8
Appeal/allowance applicants: the Board acts as a court of appeal for dissatisfied allowance applicants and recipients. It reviews decisions of the Department of Veterans Affairs to ensure that adjudication is consistent with the intent of legislation and is uniformly applied throughout Canada. The Board adjudicates pursuant to specific sections of legislation where it has sole jurisdiction, provides interpretation of the acts and regulations, and advises the Minister on the regulations.

Commonwealth War Graves Commission (VA 9)

Canadian Agency
East Memorial Building, 1st Floor
284 Wellington Street
Ottawa, Ontario
K1A OP4

Information: Ottawa/Hull (613) 992-3224.

VA 9
Commonwealth war graves and memorials: the Commission's duties are to mark and maintain the graves of members of the Commonwealth Forces who died in the two World Wars, to build memorials to those whose graves are unknown, and to keep records and registers. The Canadian agency carries out these duties in North America. It also provides information to the public on the location of Commonwealth war graves and memorials throughout the world.

VIA Rail Canada Inc (VIA)

Head Office
2 Place Ville Marie
(PO Box 8116)
Montréal, Québec
H3B 2G6

Regional Offices: Vancouver, Winnipeg, Toronto, Montréal, Moncton.

Information: Montréal (514) 286-2311; regional offices *see* Part II *under* cities listed above; in British Columbia and Nova Scotia *see* the Toll-free Telephone Service section, page 17.

Minister responsible:
Minister of Transport

VIA 1
VIA Rail Canada Inc: VIA Rail Canada became a Crown corporation on 1 April 1978. VIA manages rail passenger service in Canada, with the exception of commuter trains, and operates a network of train services covering Canada from coast to coast. These services range from the transcontinental trains to the fast inter-city trains serving parts of Eastern Canada. VIA's fleet of vehicle equipment includes conventional coaches, sleeping cars, meal service cars, and the ultramodern LRC (Light, Rapid, Comfortable) trains.
